NEW YORK STATE
DIVISION OF CRIMINAL JUSTICE SERVICES

MARIO M. CUOMO, GOVERNOR

RICHARD J.CONDON, COMMISSIONER

1984 CRIME AND JUSTICE
ANNUAL REPORT

OFFICE OF POLICY ANALYSIS, RESEARCH AND STATISTICAL SERVICES
SHERWOOD E. ZIMMERMAN, DEPUTY COMMISSIONER

BUREAU OF CRIMINAL JUSTICE STATISTICAL SERVICES
RICHARD A. ROSEN, CHIEF

FOREWORD

This is the tenth Crime and Justice Annual Report prepared by the Division of Criminal Justice Services pursuant to Sections 837, 837-a, and 837-b of the Executive Law.

I am particularly pleased to note that, for the first time in the 10-year history of this publication, reported Index offenses dropped below the million mark. This benchmark could not have been achieved without the concerted and dedicated efforts of the people who serve in the many local and State agencies which comprise our criminal justice system. It is these efforts which are documented in this Crime and Justice Annual Report.

The Division appreciates the cooperation and support of the nearly 600 police departments, sheriffs' offices and specialized police agencies that provide offense and arrest data for the report. We also wish to express our gratitude to District Attorney and Special Prosecutor offices throughout the State for their continued cooperation and assistance in providing data on the processing of felons. The Division is also indebted to the Chairman of the Board of Parole, the Chairman of the Commission of Corrections, the Commissioner of Correctional Services, the State Administrator of the Courts, the Chairman of the Crime Victims Board, the Director of the Division for Youth, and the Director of Probation for the data provided by their respective agencies. Without the participation of these people, the publication of this report would not be possible.

The contributions of all involved in the preparation of this report permit the Division to provide a clear picture of the nature of crime and justice issues in New York State.

RICHARD J. CONDON
Commissioner

STATUTORY AUTHORITY

The collection, analysis and dissemination of criminal justice data in New York State is authorized by Sections 837, 837-a and 837-b of the Executive Law, to wit:

"§ 837. Functions, powers and duties of division

The division shall have the following functions, powers and duties:

... 4. In cooperation with the state administrator of the unified court system as well as any other public or private agency,

... (c) collect and analyze statistical and other information and data with respect to the number of crimes reported or known to police or peace officers, the number of persons arrested for the commission of offense, the offense for which the person was arrested, the county within which the arrest was made and the accusatory instrument filed, the disposition of the accusatory instrument including, but not limited to, as the case may be, dismissal, acquittal, the offense to which the defendant pled guilty, the offense the defendant was convicted of after trial, and the sentence."

"§ 837-a. Additional functions, powers and duties of the division

In addition to the functions, powers and duties otherwise provided by this article, the division shall:

1. Collect and analyze statistical and other information and data with respect to the number of persons charged with the commission of a felony by indictment or the filing of a superior court information, the felony with which the person was charged therein, the county within which the indictment or superior court information was filed, the disposition thereof including, but not limited to, as the case may be, dismissal, acquittal, the offense to which the defendant pleaded guilty, the offense the defendant was convicted of after trial, and the sentence."

"§ 837-b. Duties of courts and peace officers

1. It is hereby made the duty of the state administrator of the unified court system; and of every sheriff, county or city commissioner of correction and head of every police department, state, county or local, and also railroad, steamship, park, aqueduct and tunnel police and town constables, of every district attorney, of every probation agency; and of head of every institution or department, state, county, and local, dealing with criminals and of every other officer, person or agency, dealing with crimes or criminals or with delinquency or delinquents, to transmit to the commissioner not later than the fifteenth day of each calendar month, or at such times as provided in the rules and regulations adopted by the commissioner, such information as may be necessary to enable him to comply with subdivision four of section eight hundred thirty-seven. Such reports shall be made upon forms which shall be supplied by the commissioner.

2. Such officers and agencies shall install and maintain records needed for reporting data required by the commissioner and shall give him or his accredited agents access to records for the purpose of inspection.

3. For every neglect to comply with the requirements of this section, the commissioner may apply to the supreme court or an order directed to such persons responsible requiring compliance. Upon such application the court may issue such order as may be just, and a failure to comply with the order of the court shall be a contempt of court and punishable as such."

INTRODUCTION

The New York State Division of Criminal Justice Services was assigned the responsibility for the collection of data concerning crimes and arrests in New York State, effective January 1975, pursuant to Sections 837, 837-a, and 837-b of the Executive Law. In assuming that responsibility, the Division was also committed to providing relevant data to the National Uniform Crime Reporting program administered by the Federal Bureau of Investigation and to disseminating this information to the New York State criminal justice community. This publication is the tenth annual report produced in discharge of that responsibility.

Uniform Crime reports submitted monthly by police agencies in New York State are the basis for much of the material contained in this report. These reports include information on Part I offenses, Part II offenses, location and time of the offense, value of property stolen, Part I arrests, Part II arrests, law enforcement officers killed or assaulted and number of law enforcement employees. In 1984, all 590 law enforcement agencies participated in the Uniform Crime Reporting program and agencies with multi-county jurisdictions reported separately for each county within their jurisdictions.

Police agencies also submit supplementary reports on homicide and arson offenses. These detailed reports allow for a more in-depth analysis of these serious crimes.

In addition to the Uniform Crime Reporting data contained in this report, we have provided data on felony arrests, felony drug arrests and felony indictments and dispositions. The arrest material is derived from the Computerized Criminal History (CCH), which is based on the arrest fingerprint cards submitted to the Division of Criminal Justice Services in compliance with section 160.20 of the Criminal Procedure Law. Adult felony and misdemeanor arrests are presented for each county from 1980 through 1984. The felony indictment and disposition material is reported by District Attorneys and Special Prosecutors throughout the State pursuant to Section 837a of the Executive Law. This material includes data on felony indictments, felony drug indictments, felony dispositions, felony drug dispositions and median time from indictment through disposition.

Information from other criminal justice agencies is included in this report to present, in one volume, as much information as possible about the criminal justice system. Agencies that have submitted data and are included in this report are: the Office of Court Administration, the Division of Probation, the Department of Correctional Services, the Commission of Correction, the Division of Parole, the Division for Youth and the Crime Victims Board.

For many reasons not all offenses come to the attention of the police. Victims may feel too embarrassed to report a crime or that the loss sustained was too small to report or believe that there is nothing the police can do. Victimization studies have confirmed that many offenses are never reported. When an offense is cleared, it is usually done by one or more arrests. However, there are exceptional circumstances when an offense may be cleared without an arrest. Exceptional clearances result when the police know who and where the offender is and have enough evidence to support an arrest, but are prevented from doing so because of some reason outside their control.

The UCR data included in this report are divided into seven main segments:

A. **PART I OFFENSES**

1. Criminal Homicide

   a. Murder and Non-Negligent Manslaughter
   *b. Negligent Manslaughter

2. Forcible Rape

3. Robbery

4. Aggravated Assault

5. Burglary

6. Larceny

7. Motor Vehicle Theft

*All of the above, with the exception of 1(b) Negligent Manslaughter, comprise the Crime Index, which is used to measure the relative extent of crime nationwide and to show trends in crime.

This report also provides greater detail regarding the following aspects of Part I Offenses:

a. Type of weapon/force used

b. Type of location in which the crime was committed

c. Number of offenses cleared

d. Type and amount of property stolen and recovered

B. **PART II OFFENSES**

8. Arson (Commercial, Residential or Motor Vehicle)

9. Kidnapping

10. Controlled Substance Sale/Manufacture-(Opium Cocaine, Derivatives, Marijuana, Synthetic Narcotics, Other Dangerous Drugs)

11. Dangerous Weapons (Handguns, Other Firearms, Explosives, Other Weapons)

12. Bribery

13. Sex Offenses

14. Extortion

15. Forgery & Counterfeiting

16. Prostitution & Vice (Promoting Prostitution, Prostitution and Patronizing Prostitutes)
17. Stolen Property
18. Coercion
19. Criminal Mischief
20. Fraud
21. Gambling (Bookmaking, Numbers & Lottery, All Other Gambling)
22. Offenses Against Public Order
23. Embezzlement
24. Simple Assault
25. Offenses Against the Family
26. Driving Under Influence Alcohol, Drugs
27. Unauthorized Use of Vehicle
28. Possession of Burglar Tools
29. Liquor Law Violations
30. Disorderly Conduct
31. Public Drug Intoxication
32. Loitering
33. All Other Offenses

C. AGE SEX, RACE AND ETHNIC ORIGINS OF PERSONS ARRESTED

1. Persons Under 16 Years of Age (Juvenile)
2. Persons 16 Years of Age and Over (Adults)

The arrest reports reflect the number of persons arrested for Part I and Part II offenses, as described above.

NOTE: The FBI/UCR program treats persons under 18 as juveniles, and requires that they be so reported. This report, however, is compiled in accordance with New York State law which classifies juveniles as those persons under 16 and adults as those 16 and over.

D. LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED

Statistics are provided on the number of New York State law enforcement officers killed or assaulted. A description of the conditions under which the officers were assaulted is also provided.

E. HOMICIDE ANALYSIS

Detail on homicides commited in New York State , including characteristics of victims and circumstances under which such homicides occurred are provided.

F. ARSON ANALYSIS

This report provides additional detail concerning arson. The analysis describes the types of structures involved, distribution of activity and clearance rates.

G. DOMESTIC VIOLENCE

Statistics are presented relating to the incidence of domestic violence in New York State. The statistics are presented by the geographic locations of New York City, Suburban Counties and Upstate Counties.

To combat crime effectively, it must be known when and where crime is occurring. The county, as a crime location, is not sufficiently definitive. Therefore, we have instituted direct reporting to the State program from every police chief and sheriff in New York State in accordance with State law.

It is important to note that without the collaboration of the law enforcement agencies and cooperation of other criminal justice agencies, this report would not be possible.

POPULATION DATA SOURCE

Population data used for calculating crime rates for the 1984 Crime and Justice Annual Report are based on 1980 census data and updates provided by the United States Department of Commerce - Bureau of the Census and the New York State Department of Commerce.

THE PROBLEM

OFFENSES

For over 50 years, certain criminal offenses have been used as a crime index to assess the level of criminal activity within an area. The Index offenses were selected because of their seriousness or frequency of occurrence.

The Index offenses are murder, non-negligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny and motor vehicle theft.

Comparisons of crime rates between police agencies or counties should be made with extreme caution. The crime rates published in this report are based solely on offenses reported or known to the police and the size of the resident population. Additional factors which may influence crime rates are density of population, geographic location, social attitudes, economic conditions, number of law enforcement officers, seasonal and transient populations, and rural or urban environments.

INDEX OFFENSES

Index offenses declined 4.2% in New York State from 1983 to 1984. The 985,908 Index offenses reported in 1984 are the fewest reported since 1978 and show a drop for the third consecutive year.

VIOLENT OFFENSES

Violent offenses (murder, forcible rape, robbery and aggravated assault) showed a slight increase of 0.5% from 1983 to 1984. There were 162,000 violent offenses reported in 1984. Violent offenses accounted for 16.4% of the Index total. The clearance rate for violent offenses was 39.9%.

NON-VIOLENT OFFENSES

Non-violent offenses (burglary, larceny and motor vehicle theft) declined 5.1% from 1983 to 1984 and reflected a drop for the third year in a row. This was also the lowest number of non-violent offenses reported in the last five years. The clearance rate for non-violent offenses was 13.9%. Non-violent offenses constituted 83.6% of the Index total.

MURDER

Murder and non-negligent manslaughter dropped 8.9%, down from 1,951 in 1983 to 1,777 in 1984. Homicide offenses have declined for the fourth successive year, and reflect the fewest number of homicides reported in the last five years. Murder offenses were cleared at a 68.3% rate. New York City reported 81.4% of the murder offenses in New York State.

FORCIBLE RAPE

Forcible rape offenses increased from 5,280 in 1983 to 5,571 in 1984, a rise of 5.5%. Weapons were employed in 45.5% of the rape offenses. Rape offenses were cleared at a 50.1% rate and made up 3.4% of the violent offenses. New York City reported 68.7% of the forcible rape offenses.

ROBBERY

Robbery offenses registered a 5.1% decrease, down from 94,733 in 1983 to 89,917 in 1984. Robbery offenses make up 55.5% of the violent offenses. The robbery offenses were the fewest reported in the last five years. The percentage of robberies involving handguns declined for the third consecutive year. Robberies were cleared at a 23.9% rate. New York City reported 88.7% of the robberies in New York State.

AGGRAVATED ASSAULT

Aggravated assault offenses increased 9.3% from 1983 to 1984. Handguns were used in 13.4% of the aggravated assaults and all other types of weapons were employed in 63.6% of the offenses. Aggravated assaults accounted for 40.0% of the violent offenses and were cleared at a 60.4% rate.

BURGLARY

Burglary offenses dropped 10.2% from 1983 to 1984, the largest decrease among Index offenses. The 222,644 burglary offenses were the fewest reported since 1975 when the Division of Criminal Justice Services began collecting data on burglary offenses. Burglary offenses were cleared at a 12.7% rate. New York City reported 57.9% of the burglary offenses in New York State.

LARCENY

Larceny offenses declined 2.9% from 1983 to 1984. The 485,881 larceny offenses included larcenies of any amount, and accounted for 49.3% of the Index offenses and 59.0% of the non-violent offenses. This was the lowest number of larceny offenses reported in the last five years. Larceny offenses were cleared at a 15.8% rate. Larceny offenses were divided almost equally between New York City and the rest of the State.

MOTOR VEHICLE THEFT

Motor vehicle theft declined 3.6% in New York State from 1983 to 1984. New York City reported a 4.6% drop while Upstate was down 0.4%. New York City reported 76.7% of the motor vehicle thefts in New York State. Motor vehicle thefts were cleared at an 8.5% rate in New York State. New York City reported a clearance rate of 6.3% compared to 16.0% Upstate. The 115,383 motor vehicle thefts reported in New York State in 1984 were the fewest reported in the last five years.

PART II OFFENSES

A total of 1,406,554 Part II offenses were reported in 1984, a 2.2% increase from the 1,376,337 reported in 1983. Part II offenses comprise all offenses not included in Part I offenses and range in seriousness from kidnapping to disorderly conduct. The clearance rate for Part II offenses was 69.8%. This high clearance rate is influenced by cases where the offense and arrest occur almost at the same time.

PROPERTY STOLEN

In New York State, the value of property stolen during the commission of Index offenses was $1,140,890,749 in 1984, a 3.2% increase from the 1983 total of $1,105,627,213. Stolen vehicles accounted for 48.9% of the value of property stolen in 1984.

PART I OFFENSES REPORTED/KNOWN TO POLICE

RATE PER 100,000 POPULATION

NEW YORK STATE

1984 - 1983

	NUMBER OF OFFENSES		PERCENT CHANGE	1984 CRIME RATE PER

HOMICIDE

THE OFFENSES [1]

Table 1 presents data on homicides by month and area for New York State from 1980 through 1984. There were 1,788 homicides during 1984.[2] The downturn in homicides noted in 1982 and 1983 continued during 1984. There were 177 fewer homicides in 1984 than in 1983, a decline of 9.0 percent. In 1984, New York State's homicide rate of 10.0 per 100,000 inhabitants was the eighth highest among the fifty states.[3] The year 1984 ended with the fewest number of homicides since 1975 when the Crime and Justice Annual Report first published this information.

Not all areas of the State benefited equally from the decline in homicides.[4] New York City experienced a 10.9 percent decrease from the previous year. The six MPA counties experienced an overall decline of 1.4 percent. The number of homicides for the remainder of the State increased by 4.6 percent.

The total number of homicides per month throughout 1984 was relatively sporadic. For example, there were 56 more homicides committed during December than during the previous month. The fewest number of homicides for the year occurred during October with 125 (7.0%) and the largest number occurred during December with 208 (11.6%) (Table 1).

---

[1]The Homicides discussed in this chapter were all those reported through the Supplementary Homicide Reporting system from New York State law enforcement agencies for 1984.

The number of homicides in this chapter are higher than those reported in the Uniform Crime Reports (UCR). The UCR system provides for the deletion of cases from the current year when cases originally reported in prior years have been later determined to be false or baseless (unfounded).

[2]A homicide offense was counted for each victim of a homicide event. For example, if two persons were killed by three offenders during a robbery, this was counted as two homicide offenses.

[3]Federal Bureau of Investigation, Crime in the Unites States 1984, (Washington, D.C.: U.S. Department of Justice, 1985).

[4]The regional groups used in this report are: New York City, consisting of the five boroughs of the city (Bronx, Manhattan, Kings, Queens, and Richmond); Other Metropolitan Planning Areas (MPAs), consisting of the six largest counties outside of New York City (Erie, Monroe, Nassau, Onondaga, Suffolk, and Westchester); and Other Areas, consisting of the remaining counties.

Homicide was largely a New York City problem. While New York City contained approximately 40 percent of the State's population[5], it accounted for the bulk of the homicides (81.5 percent). The remaining homicides were distributed throughout the MPAs (12.1 percent) and the Other Areas (6.4 percent). The distribution of homicides among these three areas has remained essentially unchanged for the last five years (Table 1).

Table 2 presents data for the last five years on characteristics of the homicide event including: victim-offender relationship, circumstances,[6] number of victims and offenders, location,[7] and weapon use. Reporting agencies were able to discern the victim-offender relationship in 39.7 percent of the homicides. Of these, 72 percent were committed by offenders who were considered to be non-strangers. The percentage of homicides committed by non-strangers decreased from the previous year by 1.4 percent.[8] Homicides usually did not occur in conjunction with another felony, but as the result of an altercation or other circumstance (71.1 percent). Approximately 29 percent of the homicides were related to another felony, and in such cases, the related felony was usually a robbery (52.1 percent).

The vast majority of homicide events resulted in the death of a single victim. Of these single victim offenses, 49.7 percent were killed by a single offender; 10.3 percent were killed by two or more offenders; and 39.9 percent

---

[5]Bureau of the Census, 1980 Census of Population and Housing: New York, Final Population and Housing Unit Counts, (Washington, D.C.: U.S. Department of Commerce, 1981).

[6]As part of an overall change in their reporting procedures, a submitting agency coded Altercations as Other Circumstances. In order to maintain comparability across jurisdictions for that year, it was decided to merge all Altercation cases into Other Circumstances and to relabel this category as Altercation and Other Circumstances. Within this category, there were a total of 570 altercations, but it was not possible to crosstabulate this category with any other homicide, victim, or offender characteristics. This problem occurred during 1982 only and was rectified for following years.

[7]The location indicator had two values: outside and inside. Outside was defined as a location potentially observable by a police officer on routine patrol. Inside was any other location.

[8]These percentages were based only on homicide cases for which the victim-offender relationship was known. This percentage was neither increased nor decreased consistently from 1980 through 1984. It is reasonable to believe that homicides by strangers were less likely to be solved (and therefore to be included in these percentages), thus underestimating the true percentage of victims killed by strangers. If this selection effect remained relatively constant over the years, it would not invalidate comparisons with respect to the percentage distributions across the years.

were killed by an unknown number of offenders. For homicides where the number of offenders was known, 78.4 percent consisted of a single victim and a single offender. Of all homicides, 10.9 percent resulted from the action of two or more offenders (Table 2).

Homicides were as likely to occur inside as outside. A firearm was the most common weapon (54.7 percent). When a firearm was used, it was almost always a handgun. Next in frequency of use were cutting or stabbing instruments (26.2 percent), followed by personal weapons such as hands and feet (12.5 percent) (Table 2).

Table 3 shows that in addition to contributing disproportionately to the number of homicide cases in the State, New York City's homicides were consistently different from the homicides in the MPAs and the Other Areas. New York City homicides were: more than twice as likely to involve multiple offenders; more likely to involve a firearm; more than twice as likely to occur as part of a robbery; and more likely to occur inside. New York City homicide victims were on the average two years younger than victims outside of New York City. New York City homicides victims were also more likely to be male. New York City offenders were on the average two years younger than their counterparts outside New York City. They were also more likely to be male.

THE VICTIMS

More than one-half of all homicide victims were 20 to 39 years old. Most were male. Of homicide victims, 54.3 percent were in the white racial category and 43.8 percent were black. The percentages for age and sex were relatively constant during the five year period ending in 1984. The proportions for race were not directly comparable to reports earlier than 1981 because prior to this date hispanic was a category of the race variable. Since 1981, hispanics have been coded as white, black, or other[9] (Table 5).

VICTIM SEX Both males and females were usually killed by a single offender, although this percentage was higher for females than for males. Males were usually killed with a firearm and, similar to the previous year, usually by a non-stranger. Females were also usually killed by a non-stranger. The weapons used to kill female victims were more evenly distributed than they were for males: firearms (33.6%); cutting, stabbing, and bludgeoning instruments (35.0%); and personal weapons (22.4%). Homicides involving female victims suggested a stronger relationship to domestic violence then did homicides in which the victim was a male (Table 9).

---

[9]In 1981 a new variable, Ethnicity, was created which had two values: Hispanic and non-Hispanic. Because ethnicity was underreported and the data received was unrepresentative, this information has not been presented.

VICTIM RACE There was little relationship between the race of the victim and the weapon used. Slightly over one-half of both blacks and whites were killed with a firearm. There was a stronger relationship between victim race and the victim offender relationship. Black victims were more likely to be killed by a non-stranger (77.8%) than were white victims (68.6%). In terms of circumstances of the homicide, the killings of white victims were related to another felony in 35.8 percent of the cases compared to 19.1 percent for black victims (Table 10).

AGE INTERACTIONS The distribution of homicide victims among the sex and race categories differed by victim age. While the overall percentage of female victims was 20.3 percent, the percentage of females was substantially higher in the extreme age groups: 40.0 percent among victims under ten years of age and 33.6 percent among victims sixty years of age or older (Table 7). Thus, in the under ten and over sixty age groups combined, for every 100 female victims there were 181 male victims. For the 10 to 19 age group, for every 100 female victims there were 306 male victims.

The distribution of homicides among racial categories also differed by victim age.[10] Overall, there were 124 white victims for every 100 black victims. This represents an average ratio for all age groups (Table 7).

The characteristics surrounding the killing of very young victims suggested that they usually died in familial settings. The very young were almost always killed by a single offender, a non-stranger, inside and under circumstances unrelated to a felony. They usually died as the result of a beating (Table 8).

The killing of persons 10 years of age and older proved to be more difficult to characterize. These victims were similar in that they were usually slain by a single offender 81.8 percent of the time. While persons in the 10 to 59 age group were usually killed with a firearm, the weapons used to kill elderly victims were distributed among: firearms (23.4%); cutting, stabbing, bludgeoning instruments (44.5%); and personal weapons (29.7%). Persons in both age groups were equally likely to be killed by strangers. The 10 to 59 age group and the 60 and over age group differed with respect to the circumstances and location of the homicide. The 10-59 age group was similar to the very young in being most likely to be killed during altercations and other circumstances, while the elderly were most likely to be killed in connection with another felony. The deaths in the 10-59 age group were evenly divided between inside and outside locations. However, the elderly, like the very young, were most likely to be killed at an inside location. These similarities and differences in the

---

[10] Racial categories other than black and white have been excluded to simplify the presentation.

characteristics of the homicides for these three age groups may be a result of the effect age has on how, where, and when persons spend their time.[11] The very young and the elderly spend more of their time indoors than the 10-59 age group. While both spend a great deal of time indoors, only the elderly are logical targets of felony related homicides, such as robbery (Table 8).

THE OFFENDERS [12]

As was true for victims, the vast majority of homicide offenders were males. Offenders were as likely to be black as white. Offenders, on the average, were younger than victims. These patterns have been fairly consistent for the past five years[13] (Table 11).

The propensity for homicide to be a group activity was greatest among offenders under twenty years of age and declined sharply with age. This was also true for the percentage of homicides which were felony connected. Weapon use did not appear to be strongly related to offender age. Homicides by those over 60 years of age were strongly suggestive of "indoor" rather than "street" violence: only one occurred in connection with another felony; most were by a single offender; most offenders knew their victims; and most occurred inside (Table 14).

A higher percentage of female offenders were black (62.5) than they were white (37.5) (Table 15).

Males were twice as likely as females to have killed using a firearm; six times as likely to have killed a stranger; three times as likely to have killed in connection with another felony; and two times as likely to have killed at an outside location. The victims of female offenders were predominently non-strangers (94.0%) (Table 16).

---

[11] Hindelang, Michael J., Michael R. Gottfredson, and James Garofalo. Victims of Personal Crime: An Empirical Foundation for a Theory of Personal Victimization. (Cambridge, Mass.: Ballinger, 1978).

[12] The characteristics of offenders were not known in all cases. The percentages on the characteristics of homicide offenders were based only on those cases where offender characteristics were known and reported. The total number of offenders is a minimum estimate, because of the assumption that all victims killed by an unknown offender were killed by a single offender. There are more reported offenders than victims because several offenders sometimes participated in the killing of a single victim.

[13] This statement does not apply to race because the coding of the race variable was changed in 1981, making comparisons difficult across the 1980 to 1984 time period.

There were very few differences between black and white offenders with respect to the number of offenders involved or the type of weapon used. For both racial groups, killings usually grew out of altercations and other circumstances (Table 17).

In the aggregate, it appeared that homicide offenders clearly victimized members of their own race. Approximately 88 percent of the white offenders killed white victims, while approximately 79 percent of the black offenders killed black victims (Table 18).

Overall, there was a tendency for offenders to victimize persons of a similar age to themselves (Table 19).

SUMMARY

These data on 1984 homicides showed strong similarities with data from prior years: the vast majority of homicides occurred in New York City; males predominated both as offenders and as victims; and there were relatively few interracial killings. A majority involved the use of firearms, especially handguns.

Victim age had a strong relationship to the type of homicide. The very young, being physically vulnerable and largely confined to the home, were primarily victims of their parent's violence. Victims 10 through 59 years of age were more subject to slayings at outside locations and during altercations and other circumstances. The elderly were most likely to be killed at an inside location during the commission of another felony, such as a robbery.

When viewed over the last several years, there is some indication that yearly homicide totals may be on the decline. The probability of becoming a homicide victim for inhabitants of New York State has decreased slightly from 11.4 percent in 1983 to 10.0 percent in 1984.[14] New York State's homicide rate ranks eighth among the 50 states, based on 1984 national data.

---

[14]As measured by the rate per 100,000 inhabitants.

ARSON

This is the sixth analysis of arsons in New York State to be presented in the Crime and Justice Annual Report. The data for these analyses are derived from a supplementary arson data collection program begun in 1979 under the Uniform Crime Reporting (UCR) System.

Arson is defined by the Uniform Crime Reporting Program as a "willful or malicious burning, or attempted burning, of a dwelling house, public building, motor vehicle, aircraft, or personal property of another." Only fires determined through investigation to have been willfully or maliciously set are classified as arsons. A "cleared" arson incident is defined as an offense for which a perpetrator has been taken into custody or is otherwise known by police to have committed the crime, but for reasons outside police control cannot be taken into custody.

Arsons reported under Part II of the UCR program and shown elsewhere in this volume are reported under the "hierarchy rule," whereby an offense is counted only if it is the most serious in an incident. Under this program, an arson offense is reported regardless of whether it occurred in conjunction with a more serious offense. This analysis, therefore, shows more arson offenses than are shown for arson offenses in the UCR Part II offense presentations.

Type of property is divided into three categories: structural (residential, commercial, public/community, and other); mobile (motor vehicle and other); and other property. The definitions of property type are as follows:

a. Single Occupancy Residential - includes houses, townhouses and duplexes.

b. Other Residential - includes apartments, tenements, flats, hotels, motels, inns, dormitories and boarding houses.

c. Storage - includes warehouses, garages and barns.

d. Industrial/Manufacturing - includes factories and all other manufacturing facilities.

e. Other Commercial - includes stores, restaurants and offices.

f. Public/Community - includes churches, jails, schools, colleges and hospitals.

g. All Other Structures - includes out-buildings, monuments and structures under construction.

h. Motor Vehicles - includes automobiles, trucks, buses, motorcycles, motor scooters and snowmobiles.

i. Other Mobile - includes airplanes, boats, trailers, and recreational vehicles.

j. Other Property - includes crops, timber, fences and signs.

For the first time, estimated values of property damaged are included in the report. They are included in order to provide an estimate of the absolute minimum dollar value. Because many police departments have little or no access to dollar amounts for arson, the monetary values for many arson cases are not reported.

ARSONS REPORTED

There were 10,911 arson incidents reported in New York State in 1984, a 4.4% decrease over 1983. Of these incidents, 65.0% occurred in New York City, with the other 35% occurring in the counties outside New York City.

Arsons of structures accounted for 75.0% of all arson incidents in New York State. Of these, 52.9% were residential arsons. In New York City, structural arsons accounted for 80.3% of all arsons reported, while Upstate structural fires accounted for 65.2% of all arsons.

Consistent with data from previous years, residential structure arsons remained the most common type of structural arson throughout the State. Examination of these residential structure arsons shows that almost 89% of all "other residential" arsons took place in New York City. Of the "single occupancy" arsons, 81.5% took place outside New York City, and constituted approximately 23% of the total arsons Upstate.

Commercial structure arsons accounted for 15.7% of all arsons in New York State. A regional comparison shows that Upstate had a higher proportion of commercial structure arsons (20.4%) than New York City (13.1%). "Other commercial" arsons, the most frequent form of commercial arson in New York State, accounted for 11.0% of the arsons statewide.

In the mobile arson category, the 2,337 "motor vehicle" arsons reported in New York State accounted for 21.4% of all arsons, while "other mobile" arsons accounted for only 0.4% of all arsons. Almost 53% of the "motor vehicle" arsons occurred outside New York City.

ABANDONED STRUCTURE ARSONS

The 2,253 arsons that occurred in abandoned structures accounted for 20.6% of all arsons in New York State. In New York City, 23.5% of all arsons involved abandoned structures; such arsons accounted for 15.3% of Upstate arsons.

Statewide, residential structures were the most common form of abandoned structures to be targets for arson, with the likelihood greater in New York City than in the rest of the State. Almost all arsons in the "other residential" category of abandoned structures (95.5%) occurred in New York City, while 32.3% of the arsons of "single occupancy" abandoned structures occurred there.

ARSONS CLEARED

In 1984, 1,091 arson incidents were cleared in New York State. Of these, 77.4% were structure arsons, of which 51.8% were residential and 14.1% were commercial. In New York City, clearances of residential arsons accounted for 62.3% of the total arsons cleared. Upstate clearances of residential arsons accounted for 44.0% of cleared arsons.

ARSON CLEARANCE RATES

The 1984 clearance rate[1] for all arsons in New York State was 10.0%. The New York City clearance rate was 6.5% and the rate Upstate was 16.4%. This relatively low clearance rate seems to reflect the extreme difficulty in solving a crime in which most of the physical evidence is destroyed.

Arson rates vary by the type of property involved. In 1984, statewide clearance rates for the "public/community" structural category had the highest clearance rate (18.1%). Industrial/Manufacturing arson had the lowest clearance rate, 5.4%.

ARSONS CLEARED INVOLVING PERSONS UNDER 18

Three hundred ten of the arson clearances involved persons under age 18. Persons in this age group accounted for 28.4% of all arson clearances in the State; this represents an increase from 1983, when they accounted for 23.6% of the arson clearances. In New York City, 13.1% of the clearances involved persons "under 18", while Upstate it was 39.7%.

SUMMARY

There were 10,911 arson incidents reported in New York State in 1984. Arsons in New York City accounted for 65.0% of these incidents. Statewide, 75.0% of the reported arsons were structure arsons; 52.9% were residential arsons; and 20.6% were arsons of abandoned structures. Clearance rates for arson incidents statewide averaged 10.0%. The clearance rates were 6.5% in New York City and 16.4% Upstate.

---

[1]The clearance rate is the ratio of clearances to the total number of arsons reported, expressed as a percent. Because a 1984 clearance does not necessarily reflect clearance of an offense reported in 1984, the clearance rate should be considered only as a general indicator of processing efficiency.

DOMESTIC VIOLENCE IN NEW YORK STATE

The Governor's Task Force on Domestic Violence was established by Executive Order #90 on May 17, 1979, to study "the traumatic effects of domestic violence and how our social and legal systems can better deal with such violence and its causes."

The Uniform Crime Reporting System (UCR) is utilized by DCJS as the data collection instrument for obtaining domestic violence data from the local law enforcement agencies. The domestic violence data reflected in this report are based on those offenses which have come to the attention of law enforcement officers, regardless of whether a formal complaint was filed or an arrest made.

For New York City, the 20,254 offenses reported in 1984 is an 8.0% increase over the 18,752 reported in 1983. The Suburban New York City counties increased 15.6%, while the Upstate counties increased a slight 1.4%.

Statewide, domestic violence offenses reported increased. A total of 41,688 offenses were reported in 1984 as opposed to 38,758 reported in 1983, an increase of 7.6%. As in prior years, this increase is largely due to improved reporting by the law enforcement agencies across the State.

THE RESPONSE

ARRESTS

Arrests in New York State during 1984 totaled 1,093,113, a 0.6 percent increase from the 1,086,937 arrests in 1983. Males accounted for 85.9 percent of those arrested and females, 14.1 percent.

Arrests for Index offenses -- murder, non-negligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny and motor vehicle theft -- dropped from 173,136 in 1983 to 171,420 in 1984, down 1.0 percent. In 1984, arrests for Index offenses accounted for 15.7 percent of the New York State arrest total. Arrests for burglary dropped 9.2 percent; murder and non-negligent manslaughter arrests were down 12.9 percent. Arrests for aggravated assault registered a 10.5 percent increase.

ADULT ARRESTS [1]

A total of 1,015,526 adult arrests were reported in New York State in 1984. Adults sixteen through twenty-nine accounted for 69.9 percent of the adult arrest total and adults twenty-one and under made up 36.2 percent of the arrest total.

The 145,473 adult arrests for Index offenses in 1984 were slightly below the 146,129 reported in 1983. Adult arrests for Index offenses constituted 14.3 percent of the adult arrest total. The 51,834 adult arrests for violent offenses - murder, non-negligent manslaughter, forcible rape, robbery and aggravated assault - represented 5.1 percent of the total adult arrests.

Arrests for non-violent Index offenses -- burglary, larceny and motor vehicle theft -- totaled 93,639, 64.4 percent of the arrests for Index offenses. Arrests for larceny alone accounted for 43.8 percent of the arrests for Index offenses.

Arrests for Part II offenses - ranging in seriousness from kidnapping to disorderly conduct - made up 85.7 percent of the adult arrest total.

Note: Arrests include summonses for violation of local ordinances

---

[1]Adults are persons sixteen years of age and older.

Excluding the "all other" category, arrests for drugs, driving while intoxicated and disorderly conduct were the largest arrest categories among Part II offenses. Drug arrests increased 16.6 percent from 1983, driving while intoxicated arrests, 3.8 percent and disorderly conduct arrests, 10.2 percent. In 1984, these arrest categories accounted for 26.6 percent of the Part II adult arrests.

JUVENILE ARRESTS

New York State reported a total of 77,587 juvenile arrests in 1984, 0.8 percent below the 78,206 reported in 1983. Males represented 82.6 percent of the juveniles arrested and females, 17.4 percent. Arrests for larceny and fraud accounted for 37.0 percent of the juvenile arrests.

Arrests for fifteen year olds accounted for 36.6 percent of the juveniles arrested and fourteen year olds represented an additional 27.9 percent.

Juveniles made up 18.3 percent of all larceny arrests and 21.2 percent of burglary arrests.

NEW YORK CITY

New York City reported 68.7 percent of all the arrests in New York State in 1984. For violent offenses, New York City reported 76.6 percent of the arrests and for Index offenses, 55.7 percent.

The 41,302 juvenile arrests reported by New York City accounted for 53.2 percent of the State total.

DRUG ARRESTS

Combined adult and juvenile drug arrests increased from 71,733 in 1983 to 83,606 in 1984, an increase of 16.6 percent. Arrests for marijuana accounted for 52.0 percent of the New York State drug arrests and reflected a 9.3 percent increase from 1983 to 1984. Arrests for opium, cocaine and derivatives represented 32.7 percent of the drug arrests and showed a 21.2 percent increase from 1983 to 1984.

New York City reported 74.6 percent of the drug arrests in 1984 and 82.8 percent of the arrests for opium, cocaine and derivatives.

RACE AND ETHNIC ORIGIN

Data on race and ethnic origin were estimated for 483,892 summonses reported from New York City. Existing forms do not provide for the reporting of racial and ethnic data for New York City summonses. Arrest categories that include these estimates are: marijuana use, criminal mischief, other gambling, liquor law violations, disorderly conduct, loitering and "all other offenses." The majority of the summonses are reported in the "all other offenses" category.

ADULT FELONY AND MISDEMEANOR ARRESTS

This is the first volume of Crime and Justice that presents data on both felony and misdemeanor adult arrests.

A total of 149,150 felony adult arrests were reported in New York State in 1984, 5.6 percent above the 141,269 reported in 1983.

From 1983 to 1984, arrests for class A and class C felonies showed little change while arrests for class B felonies increased 9.4 percent, class D felonies 6.4 percent and class E felonies 4.3 percent.

New York City reported 70.9 percent of the total adult felony arrests in 1984 compared to 68.6 percent in 1983.

New York State reported 254,059 adult misdemeanor arrests in 1984, a 5.1 percent increase over the 241,730 reported in 1983.

New York City showed an 8.5 percent increase in adult misdemeanor arrests from 1983 to 1984 and represented 44.7 percent of the State total in 1984.

NEW YORK STATE

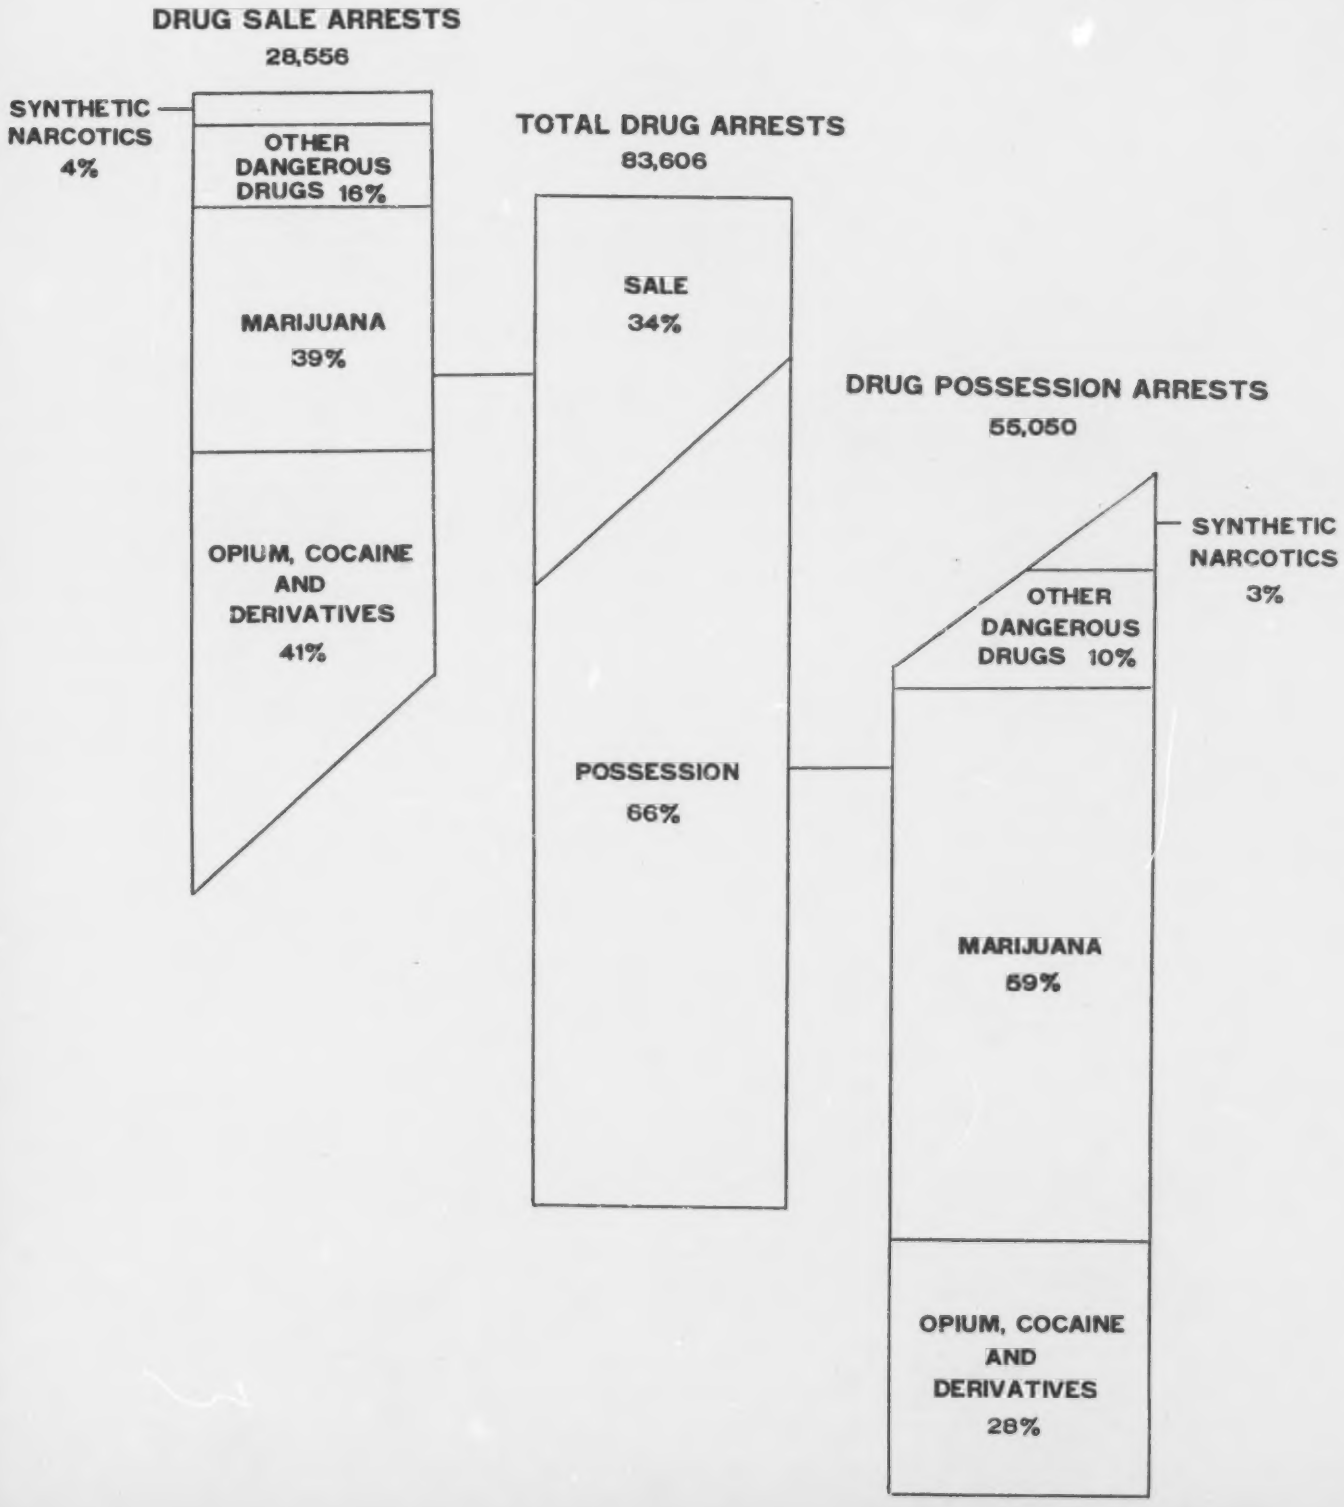
DRUG ARRESTS

PERCENT DISTRIBUTION BY SALE AND POSSESSION

1984



INDICTMENTS AND DISPOSITIONS

The following tables present data on felony indictments[1] and dispositions for 1984 and 1983. This information is obtained from a statistical reporting system based on individual reports of each indictment and each disposition submitted by District Attorneys and Special Prosecutors throughout the State. The unit of count in this reporting system is the defendant/indictment; that is:

- o when several defendants are named in one proceeding or indictment, each defendant is counted separately; and
- o when one defendant is named in multiple proceedings or indictments, each indictment is counted separately.

The use of offender-based statistics and the tracking of each defendant from time of indictment until final disposition makes possible the measuring of elapsed time between various stages in processing. The median time is obtained by ranking all the values in a specific category (for example, time from indictment to disposition) and choosing the middle number -- that is, the number with an equal amount of values above and below it. As a result, median values are not influenced by very large or very small numbers which can affect averages.

It should be noted that the disposition data reported in these tables pertain to cases handled during the specified year by the Superior Courts. These dispositions may be for indictments in the same or previous years.

DEFENDANT - INDICTMENTS

A record total of 47,470 felony indictments was reported for New York State for 1984. This is a 3.0% increase from 1983. New York City reported a 4.6% increase and the Suburban Area of New York City was up 1.0%. The Upstate area dropped 0.5% during the same period.

Felony drug indictments increased 7.3% in New York State, 10.0% in New York City and 4.4% in the Suburban Area of New York City while the Upstate area reflected a 3.5% drop.

Class A felony drug indictments were down 6.0% in New York State with New York City down 6.7% and the Upstate area declining 11.9%. The Suburban Area reported an increase of 1.9% in Class A drug indictments.

---

[1]The indictment data also include superior court information data. These informations are waivers of indictment with the same force and effect as an indictment.

DISPOSITIONS

Dispositions include felony indictments for which judicial proceedings were completed by dismissal, acquittal, other court action or conviction and sentence.

The 44,746 dispositions reported in New York State in 1984 were 2.8% below the record high of 46,016 reported for 1983.

In 1984, trials (acquittals or convictions) accounted for 10.0% of the dispositions compared to 9.6% in 1983.

Despite the overall decrease in dispositions, the number of trials increased from 4,419 in 1983 to 4,468 in 1984, an increase of 1.1%.

The conviction rate is derived by dividing the total number of convictions by the total number of dispositions. Convictions are included in these totals only if the sentence has been imposed.

The overall conviction rate in New York State increased from 85.2% in 1983 to 86.5% in 1984. Guilty pleas accounted for 91.8% of the convictions in 1984.

Prison sentences were imposed in 40.0% of the convictions and an additional 14.0% received sentences to local institutions.

New York City reported 61.0% of the dispositions in New York State in 1984.

Dispositions in New York City declined 2.4% from 1983 to 1984.

The conviction rate in New York City was 83.9% in 1983 compared to 84.7% in 1984. Incarceration, prison and jail, resulted from 61.5% of the New York City convictions.

The Suburban Area of New York City reported a 4.3% decrease in dispositions from 1983 to 1984. The conviction rate increased from 88.5% in 1983 to 91.0% in 1984.

The Upstate area showed dispositions declining 2.6% from 1983 to 1984. During the same period the conviction rate increased from 86.4% to 88.2%.

DRUG DISPOSITIONS

Dispositions of drug indictments in New York State rose 7.1% from 1983 to 1984.

Trials accounted for 5.5% of the dispositions in 1984 versus 4.9% in 1983. The conviction rate for trials was 74.4% in 1983 compared with 71.0% in 1984.

Class A dispositions increased 2.2% in New York State from 1983 to 1984.

PROCESSING TIME

In New York State the median processing time from indictment to disposition dropped from 119 days in 1983 to 107 days in 1984. Each of the geographic areas reported a decrease in processing time.

NEW YORK STATE

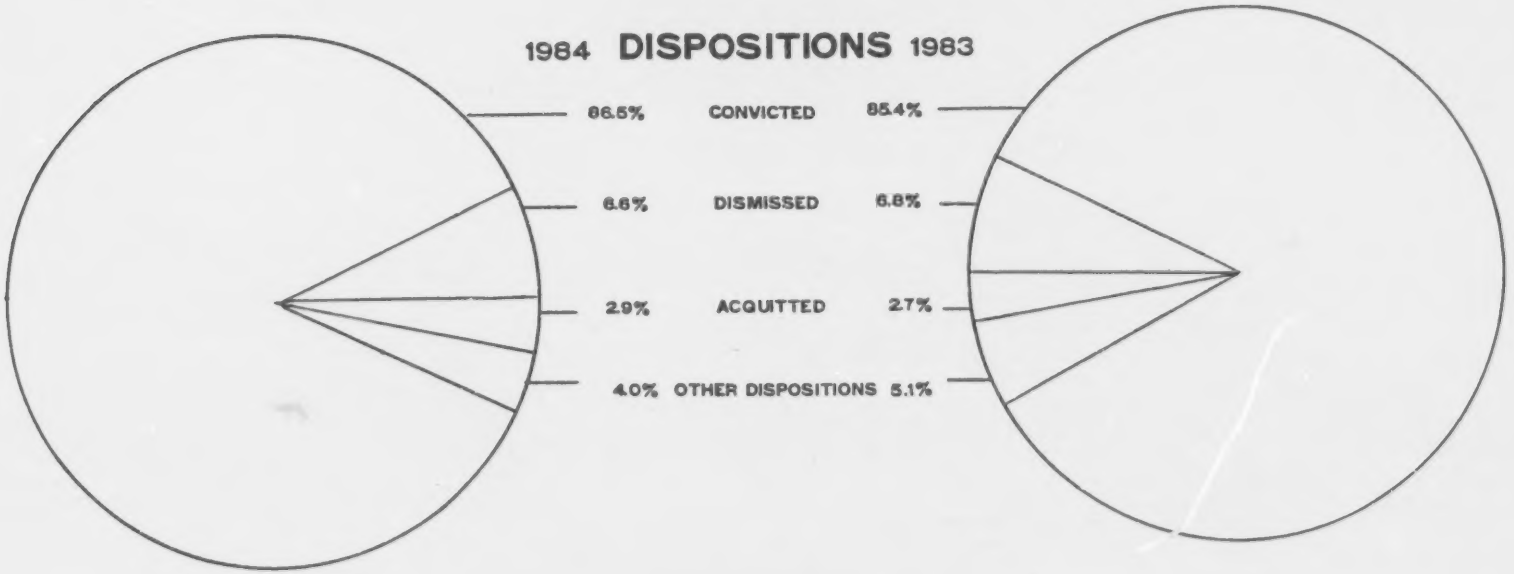
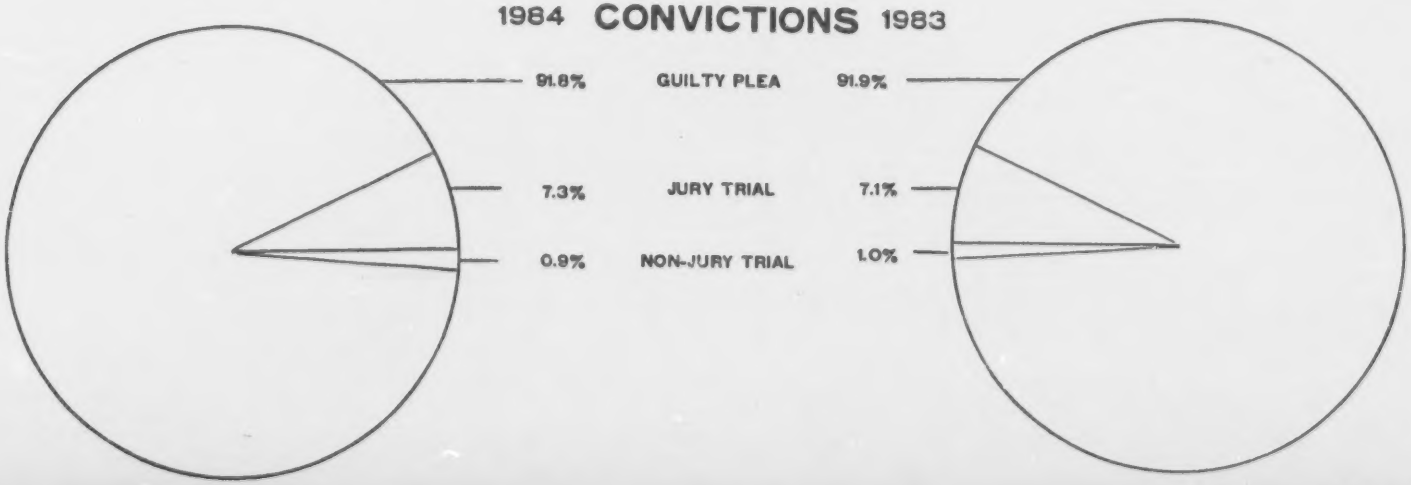
DISPOSITIONS AND CONVICTIONS OF FELONY DEFENDANT - INDICTMENTS

1984 - 1983

1984 DISPOSITIONS 1983

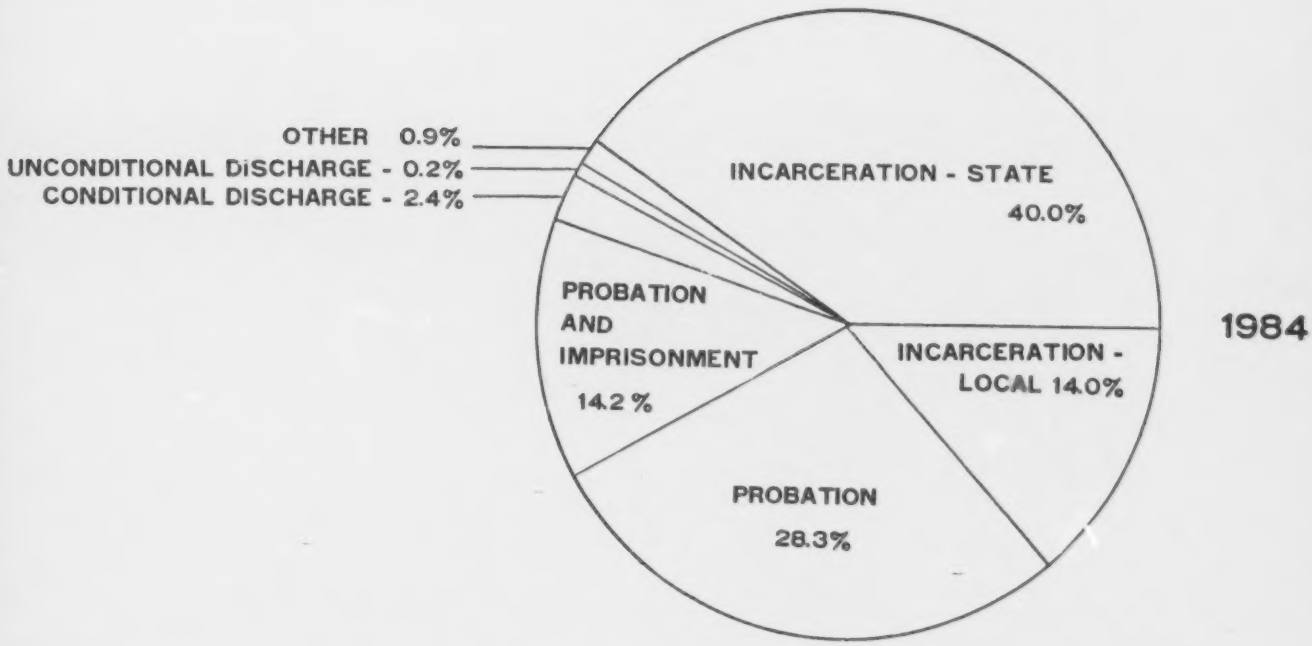


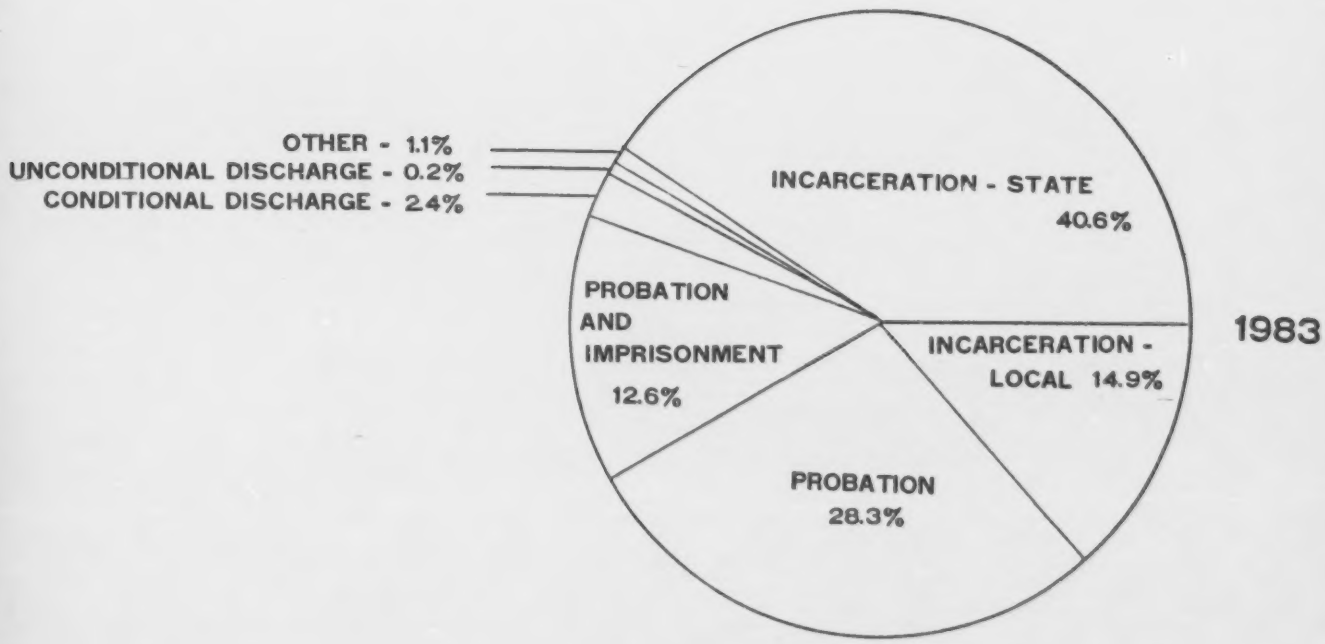
1984 CONVICTIONS 1983



SENTENCES FOR CONVICTIONS OF FELONY INDICTMENTS

1984 - 1983





SENTENCES FOR SELECTED FELONY OFFENSES

In 1984, there were 19,564 convictions for the offenses of murder, rape, robbery, aggravated assault, burglary and larceny[1] in New York State, a 5.7% decrease from the 20,743 convictions reported in 1983.

CONVICTION CHARGE

Convictions for robbery (robbery 1st, 2nd, 3rd and attempts) accounted for 42.2% of the total convictions. Roughly half (50.8%) of the sentences to State prison were for robbery convictions.

Burglary convictions (burglary 1st, 2nd, 3rd and attempts) were the next largest conviction category, constituting 32.6% of the total convictions. Burglary convictions accounted for 27.6% of the State prison sentences.

TYPE OF SENTENCE

The most frequent sentence for these felony convictions involved incarceration: State prison, 51.4%; local prison, 12.2%; and probation and imprisonment, 12.2%.

LENGTH OF SENTENCE

The median time for maximum length of sentence was five to seven years. Sentences with a maximum of three years accounted for 19.3% of the prison sentences.

---

[1]Motor vehicle thefts are included in the larceny category on the following table.

PROCESSING TRENDS FOR FELONY OFFENSES AND FELONY DRUG OFFENSES

Data shown for these offenses were obtained from several sources. Offense and arrest statistics were compiled from monthly Uniform Crime Reports submitted to the Division of Criminal Justice Services by police agencies in New York State. The felony drug arrest data were obtained from fingerprint cards submitted to the Division in accordance with Section 160.20 of the Criminal Procedure Law. Data on indictment through sentence were provided on individual reports by District Attorneys and Special Prosecutors in New York State.

Indictments, convictions and sentences to State prison may result from felony arrests in the same year or previous years. Convictions may be for indictments in the same or previous years and are included in the year in which the defendant was sentenced.

FELONY OFFENSES

From 1980 through 1984 felony arrests increased 14.6%, while felony indictments rose 29.8%, convictions 53.6%, and State prison sentences 57.5%. Felony arrests and felony indictments increased from 1983 to 1984 while convictions and State prison sentences registered slight decreases.

FELONY DRUG OFFENSES

Felony drug arrests, indictments, dispositions, convictions and sentences to state institutions increased each year from 1980 through 1984. Felony arrests were up 21.7% from 1983 to 1984 while indictments rose 7.3%, dispositions 7.1%, convictions 8.7%, and State prison sentences 15.6%.

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED

During 1984, five law enforcement officers were feloniously slain in the line of duty in New York State. Three other officers accidently lost their lives while performing law enforcement duties.

There were 6,333 officers assaulted while performing law enforcement functions, an increase of 10.6% from the 5,724 officers assaulted in 1983. In 1984, 87.5% of the assaults resulted in personal injury to the officer.

WEAPONS

Physical force, as in prior years, was the most common method of assault; 79.6% of the officers were assaulted in this manner. 'Other dangerous weapons' were the next most frequently used weapons in assaults (9.6%) followed by handguns at 6.4%, knives at 3.8% and lastly, other firearms at 0.6%.

ACTIVITY

As in previous years, assaults occurred most frequently when officers were attempting arrests, accounting for 32.2% of the assaults. The next highest number of assaults took place during disturbance calls, accounting for 20.7% of the assaults. The fewest number of assaults, 0.6%, occured during ambushes.

The number of assaults that occurred during robberies and civil disorders decreased from 1983 to 1984 by 14.8% and by 29.5%, respectively. Ambush assaults decreased 53.3%, but assaults while attempting arrest increased 15.6% and assaults responding to disturbance calls increased 29.1%.

ASSIGNMENTS

Officers assigned to two-man vehicles experienced the most assaults, 45.9%. These assaults increased 8.5% over 1983. In contrast, only 11.6% of the assaults were experienced by officers assigned to one-man vehicles. The 736 cases represent a 16.1% increase from the previous year. Assaults on detectives and officers on special assignments decreased 1.9%.

TIME

The likelihood that a law enforcement officer would be assaulted was greatest between 10:00 PM and 12:00 PM, the hours when 945 (14.9%) of the assaults took place. An assault was least likely to occur between 6:00 AM and 8:00 AM, the hours when only 164 (2.6%) of the assaults took place.

Forty-nine percent (48.8%) of all assaults occurred between 4:00 PM and midnight, the hours when police are usually their busiest. The hours of 8:00 AM to 4:00 PM recorded the lowest number of assaults, 23.7%.

IN MEMORIAM

The Division of Criminal Justice Services joins the criminal justice community of New York State in extending its sincere cympathy to the families of the following law enforcement officers who gave their lives while protecting and serving the citizens of their communities during 1984.

JUAN ANDINO
NEW YORK CITY POLICE DEPARTMENT
Slain with a .38 caliber handgun while making an arrest for larceny.

ANGELO E. BROWN
NEW YORK CITY POLICE DEPARTMENT
Slain with an unknown caliber handgun while attempting to thwart a robbery during off-duty hours.

JAMES W. CAROZZA
GREENBURGH POLICE DEPARTMENT
Killed in a head-on collision while responding to a back-up call for assistance in a high-speed chase.

JOHN C. HAWLEY
ELMIRA POLICE DEPARTMENT
Slain by cover fire while attempting to arrest two armed parole violators.

IRMA LOZADA
NEW YORK CITY TRANSIT AUTHORITY
Slain with a .38 caliber handgun while attempting the arrest of a larceny suspect.

THOMAS P. RUOTOLO
NEW YORK CITY POLICE DEPARTMENT
Slain with a .38 caliber handgun while approaching a theft suspect.

RONALD J. SIVER
ROCHESTER POLICE DEPARTMENT
Drowned while involved in the recovery of the body of a drowning victim.

RICHARD B. SNYDER
NEW YORK STATE POLICE
Slain from ambush with a .22 caliber rifle while on an investigative assignment.

LAW ENFORCEMENT AGENCIES

EMPLOYEES

A total of 71,180 persons were employed by law enforcement agencies in New York State in 1984[1]. This figure includes both uniformed and civilian personnel and those working full and part-time as well. The 1984 figure represents an increase of 6.1% over the figure reported in 1983.

The largest department was the New York City Police Department with 33,014 employees. The next largest departments, in order of size, were the New York State Police with 4,303, N.Y.C. Transit Authority with 3,815, Nassau County Police with 3,778, and the Suffolk County Police with 3,101 employees.

Statewide, 78.0% of the employees were uniformed personnel. The number of uniformed personnel increased 3.9% between 1983 and 1984. Ninety-six percent (95.8%) of the uniformed personnel were employed full time. Females accounted for 5.5% of the uniformed personnel; the number of females employed rose 14.3% over the number employed in 1983.

Municipal police agencies employed 76.9% of the uniformed personnel in New York State; special or multiple jurisdiction agencies (parks, railroads, university campuses, etc.) employed 17.9%, and sheriffs employed the remaining 5.2%.

EXPENDITURES

The State's law enforcement agencies submitted estimates of operating expenditures for FY 1984 that amounted to $2,362,338,453, an increase of 11.3% over FY 1983 operating expenditures. The FY 1984 expenditures were distributed across law enforcement jurisdictions as follows:

Agency	Expenditures	Percent
Sheriffs[2]	86,009,657	3.7
New York City P.D.	962,068,000	40.7
State Police	140,670,132	6.0
Municipalities	823,148,600	34.8
Authorities & Special Agencies	350,442,064	14.8
TOTAL	2,362,338,453	100.0

---

[1]Law enforcement agencies submit agency population estimates on an annual basis; these population estimates reflect all law enforcement employees -- excluding employees assigned to jail duties -- on the agencies' payrolls as of October 31, 1984.

[2]Does not include jail operating expenditures for FY 1984.

OFFICE OF COURT ADMINISTRATION

UNIFIED COURT SYSTEM

INTRODUCTION

There were 2,527,017 filings in the trial courts of the Unified Court System during 1984.[1,2] Fifty percent(1,254,984) were filed in criminal courts, 30% (768,040) in civil courts, 15% (385,035) in the Family Courts, and 5% (118,958) in the Surrogates' Courts.

Dispositions in the trial courts during 1984 totaled 2,503,465 as follows: criminal courts--47%, civil courts--31%, Family Courts--15%, Surrogates' Courts--7%.

Table 1 shows a breakdown of filings and dispositions in the trial courts by type of court.

---

[1]All data in this chapter are from the Caseload Activity Reporting System of the Unified Court System. Courts report data to the Office of Court Administration pursuant to the Rules of the Chief Administrator of the Courts (22 NYCRR 115).

[2]Excludes Town and Village Courts. An estimated additional two million cases were filed and disposed in these courts in 1984 (data not yet available).

[a]The disposition figure is used as intake. Intake data are not available for fine payments processed in clerks' offices.

[b]The disposition figure is used as intake. This is the number of cases filed in which there was no answer, but in which a default judgment was entered. These cases were not calendared.

[c]Includes 1,163 noncalendared cases that were referred to the Arbitration Program.

[d]Does not include dispositions in the Arbitration Program.

[e]Shown here for reference only and not included in totals. Recorded as intake in the civil courts listed immediately above.

[f]Surrogates' Court dispositions include orders signed, decrees signed, and letters issued.

Criminal cases are processed in the trial courts as follows. Felony indictments and superior court informations are processed in the Criminal Terms of Supreme Court in New York City and in the County Courts outside of New York City. In several counties outside of New York City, a portion of the felony caseload is processed in the Supreme Court as well. The courts of limited jurisdiction--Criminal Court of the City of New York; District Courts of Nassau and Suffolk; and City, Town, and Village Courts outside of New York City--have original jurisdiction over felonies and complete jurisdiction over misdemeanors, violations, and infractions.

1. Criminal Terms of Supreme and County Courts

Filings: Statewide, 49,191 felony cases were filed in Supreme and County Courts during 1984.[3] This level of filings was an increase of 4% from the 47,340 filings in 1983 and 47,363 in 1982. Sixty percent (29,529) of 1984 filings occurred in New York City.

Table 2 shows a breakdown of 1984 filings by judicial district. The greatest rates of increase were in the 8th (Erie and surrounding counties) and 11th (Queens) JDs and in Suffolk County (10th JD). Filings in the 11th JD rose 20% from 4,865 in 1983 to 5,817 in 1984. Filings in Suffolk increased 14% from 2,840 to 3,238. In the 8th JD, filings increased 10% from 2,658 in 1983 to 2,917 in 1984. All other district changes were moderate by comparison.

---

[3] "Cases" are a count of "defendant-indictments," i.e., each defendant on each indictment counts as one case.

Table 3 focuses on individual counties, ranking those with 400 or more felony-case filings or dispositions. Sixteen of the sixty-two counties accounted for 88% of all filings. New York County had the highest volume, with 10,389 filings. Kings, Queens, and the Bronx followed.

Dispositions: Statewide, 50,354 cases reached disposition (guilty plea, trial verdict, dismissal, or other) in 1984. This total exceeded new case filings (49,191) by 2%. Sixty percent (30,279) of the statewide dispositions were in New York City.

Table 2 shows 1984 dispositions by judicial district. Dispositions in the 9th JD (Westchester and surrounding counties) exceeded filings by 11%, in the 12th JD (Bronx) by 9%, and in the 1st JD (New York County) by 8%. Dispositions in the 11th JD (Queens) increased 8% compared with 1983.

Table 3 shows that fifteen counties with over 400 dispositions accounted for 87% of all felony-case dispositions and that eleven counties accounted for 88% of felony trials commenced statewide. Of the total of 5,296 felony trials commenced, 4,456 (84%) were jury trials.

Figure 1 shows felony-case dispositions by type. There were 39,395 guilty pleas (78%), 5,279 dismissals (10%), 4,787 trial verdicts (10%), and 893 other dispositions (2%). This breakdown is similar to that of previous years.

Figure 1
FELONY DISPOSITIONS IN 1984
BY TYPE OF DISPOSITION

2. Criminal Courts of Limited Jurisdiction

Criminal Court of the City of New York: There were 259,636 arrest-case dockets filed in the Criminal Court of the City of New York in 1984. There were 244,380 dispositions in this period. These figures were increases of 8% in filings and 5% in dispositions compared with 1983.

Of the dispositions, 52% were by guilty plea, 29% by dismissal, 12% by referral to grand jury or transfers to Supreme Court for waiver of indictment, less than one-half of 1% by verdict, and 7% were other dispositions. This distribution is nearly identical to that of 1983.

There were 184,600 summonses added to the calendar. (In addition, 421,053 summonses were filed to which defendants did not respond.) There were 178,711 dispositions. Both intake and disposition figures include a small number of cases handled by mail.[4]

City and District Courts outside New York City: Criminal-case intake in the City Courts and the District Courts (Nassau and Suffolk) was 261,749 in 1984. There were 200,142 dispositions. Of the dispositions, 58% were by guilty plea, 37% by dismissal, 3% by referral to grand jury, 1% by trial verdict, and 1% by other means. The corresponding 1983 breakdown was nearly identical.

---

[4]In New York City, most motor-vehicle summonses and summonses for certain violations of environmental laws are returnable to administrative agencies outside of the Unified Court System.

In addition, 499,808 motor-vehicle matters were disposed in the City and District Courts in 1984.

Figure 2 shows criminal caseload activity in the courts of limited jurisdiction.

Figure 2
CRIMINAL CASES IN TRIAL COURTS OF LIMITED JURISDICTION IN 1984

Criminal Court of the City of New York

Arrest Cases	
Intake[a]	259,636
Dispositions	244,380

Summons Cases	
Intake[b]	184,600

City and District Courts outside New York City

Criminal Cases	
Intake	261,749
Dispositions	200,142

Motor-Vehicle Cases[c]	
Dispositions	499,808

[a]Of the 259,636 docket numbers filed, there were 237,463 arraignments. Bench warrants issued on desk appearance tickets, many of which were subsequently returned to court, account for the difference between the two figures.

[b]This is the sum of 172,883 arraignments plus 11,717 mailed-in pleas, most of which were guilty pleas and included fine payments.

[c]Intake is not shown because data are not available for fine payments (by mail or personal appearance) processed in clerks' offices.

Table 4 shows 1984 criminal-case intake in the highest volume City and District Courts (Criminal Court of the City of New York excluded). Suffolk District Court ranked first, with 96,055 arraignments. Nassau District Court was second, with 52,411. The ten highest-volume City and District Courts accounted for 80% of all criminal-case intake in 1984 in the courts of limited jurisdiction outside of New York City.

Table 4

PROBATION

The New York State Division of Probation collects data from local probation departments each month and compiles this data on probation service delivery annually. The probation services include: intake for family court, investigations conducted for family and criminal courts, pre-disposition supervision and probation supervision.

HIGHLIGHTS OF 1984
BASED ON
REPORTS OF WORKLOAD IN PROBATION DEPARTMENTS

Intake Services

Cases opened for intake services increased 5% over 142,401 in 1983 to 150,221 in 1984. The 46,291 cases opened in New York City represented 31% of the statewide total, compared to 28% in 1983. (Chart 1)

Investigations

Probation departments conducted 87,362 regular investigations (pre-sentence, pre-plea, JD and PINS), and 57,073 other investigations. This 144,435 total is a 1% increase over the 142,984 investigations conducted in 1983. (Table 1)

Pre-Disposition Supervision

There were 15,152 cases received for supervision prior to court disposition. This was a 0% change from the 15,155 received in 1983. (Chart 2)

Probation Supervision

The Division of Probation continues its revised method of calculating probation supervision cases received. In order to eliminate duplicate counting of intrastate transfer cases, transferred-in cases are included and transferred-out cases are deducted from the cases received count.

During 1984, there were 42,981 probation supervision cases received. This was a 2% decrease from 1983, when 44,062 cases were received. (Table 2 and Chart 3)

At the end of 1984, there were 96,729 cases under supervision, an increase of 8% over the 90,708 being supervised on 12/31/83. (Chart 4)

CORRECTIONAL SERVICES

Under Custody Population (Exhibit 1 and 2)

The number of inmates under custody declined from 12,525 at the end of calendar year 1971 to a low of 12,444 at the close of 1972. This decline began in 1964 and continued over a nine year period. Contributing to this decline was the Baxtrom decision which led to the release from Department custody of all criminally insane inmates held beyond their maximum expiration dates along with related decisions which ended the practice of holding under custody dangerously mentally incapacitated persons for long periods of time. These decisions, coupled with other factors including a revised Penal Law which became effective in September of 1967, changes in sentencing procedures, and the development of major institutional programs for drug addicts by the state's drug control agency, resulted in an annual net loss in the under custody population which continued through 1971. This situation was reversed in 1973 when admissions exceeded releases for the first time since 1963. This rise in the under custody population has continued every year through 1984, when the under custody population rose to 33,809 (including 673 detained parolees), an increase of 171.7 percent over a thirteen year period.

Admissions to Department Custody (Exhibit 3)

Admissions registered a steady rise from an annual total of 7,242 in 1971 to 10,272 in 1977. The number or admissions fell to 8,837 in 1978 but resumed an upward trend in 1979 reaching an all time high of 14,867 in 1983. Admissions for 1984 at 14,848 continued at the same high level as 1983. The high number or 1976 and 1977 admissions reflected efforts by the Office of Court Administration to reduce a large backlog of felony cases pending before the Supreme Court which resulted in a temporary acceleration of the already high and rising rate of court commitments. Similar efforts in 1981 and 1983 have contributed to a continued rise in commitments which reach an all time high of 12,536 in 1983. Court commitments account for eight of ten admissions and trends in this category largely shape the flow of offenders into State prisons. Court commitments declined to 4,250 in 1970. From this 1970 low, commitments have risen to the high of 12,536 in 1983, an increase of 195.0 percent. Beginning in 1971, felony commitments rose rapidly, offsetting declines in other types of commitments. Contributing to this trend has been a rise in felony arrests, indictments and court dispositions and an increasing tendency of the courts to commit convicted felons to state correctional facilities. Several more stringent laws enacted in 1973 and subsequent years have added to this increase in commitments. These include the Second Felony Offender Law, which has imposed mandatory indeterminate sentences on such offenders; a drug law which has imposed harsher penalties on drug offenders; and the law imposing mandatory indeterminate terms for all Class B felonies and for certain Class C and D felonies. The trend toward a high level of court commitments has continued through 1983 reflecting the impact of the violent felony offender legislation which became effective in September 1978.

Releases from Department Custody (Exhibit 3)

Releases from DOCS custody remained relatively stable during the five year period, 1971-1975, averaging 7,285 annually. In 1976 a sharp rise in releases is observed, up 10% over the previous year. This substantial rise reflected a growth in the pool of parole eligible inmates in the burgeoning inmate population who were subsequently released to parole supervision. 1978 saw a temporary drop in releases which reflected longer minimum periods of incarceration being set by the Board of Parole and a modest shift toward longer sentences on the part of the courts, both of which lessened the number of paroles. Releases for 1979 and 1980 resumed an upward trend, including all time high volumes of parole and conditional releases. A decline in 1981 releases reflects both sentencing changes under the Violent Felony Offender Law as well as change in the manner in which the minimum period of incarceration was determined for a considerable portion of the inmate population. Releases resumed their upward trend in 1982 and 1983 with successive all time highs of 10,283 and 12,203 respectively. As with admissions, releases leveled off in 1984 at approximately 1983 levels.

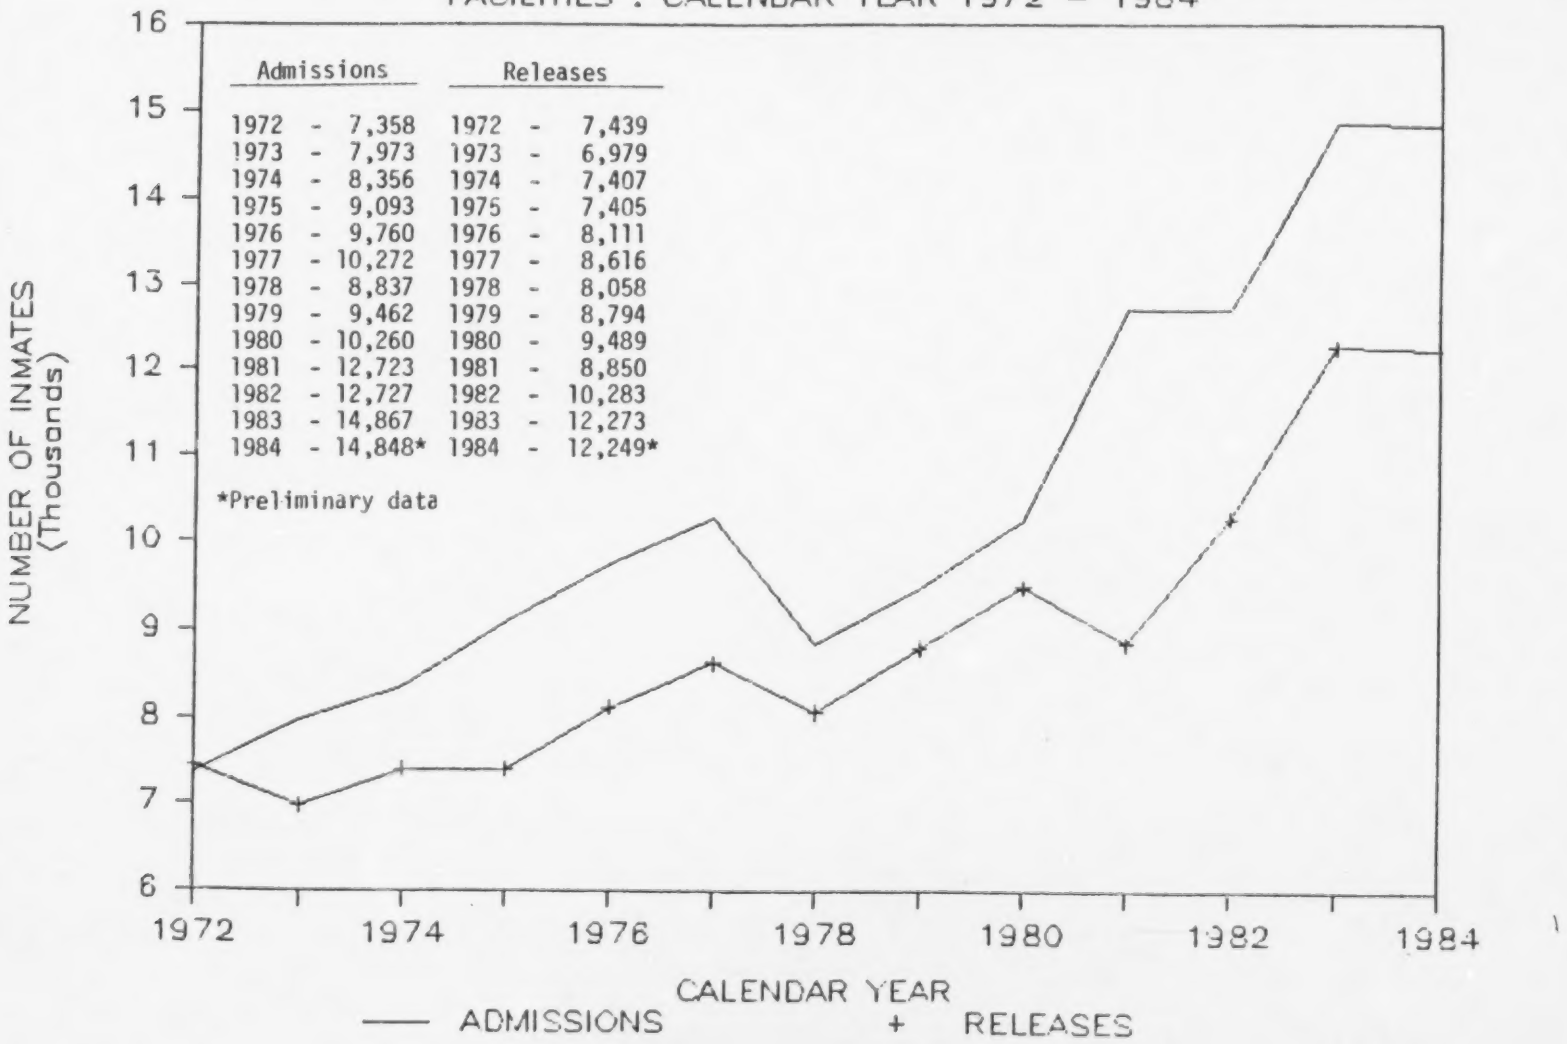

EXHIBIT 4

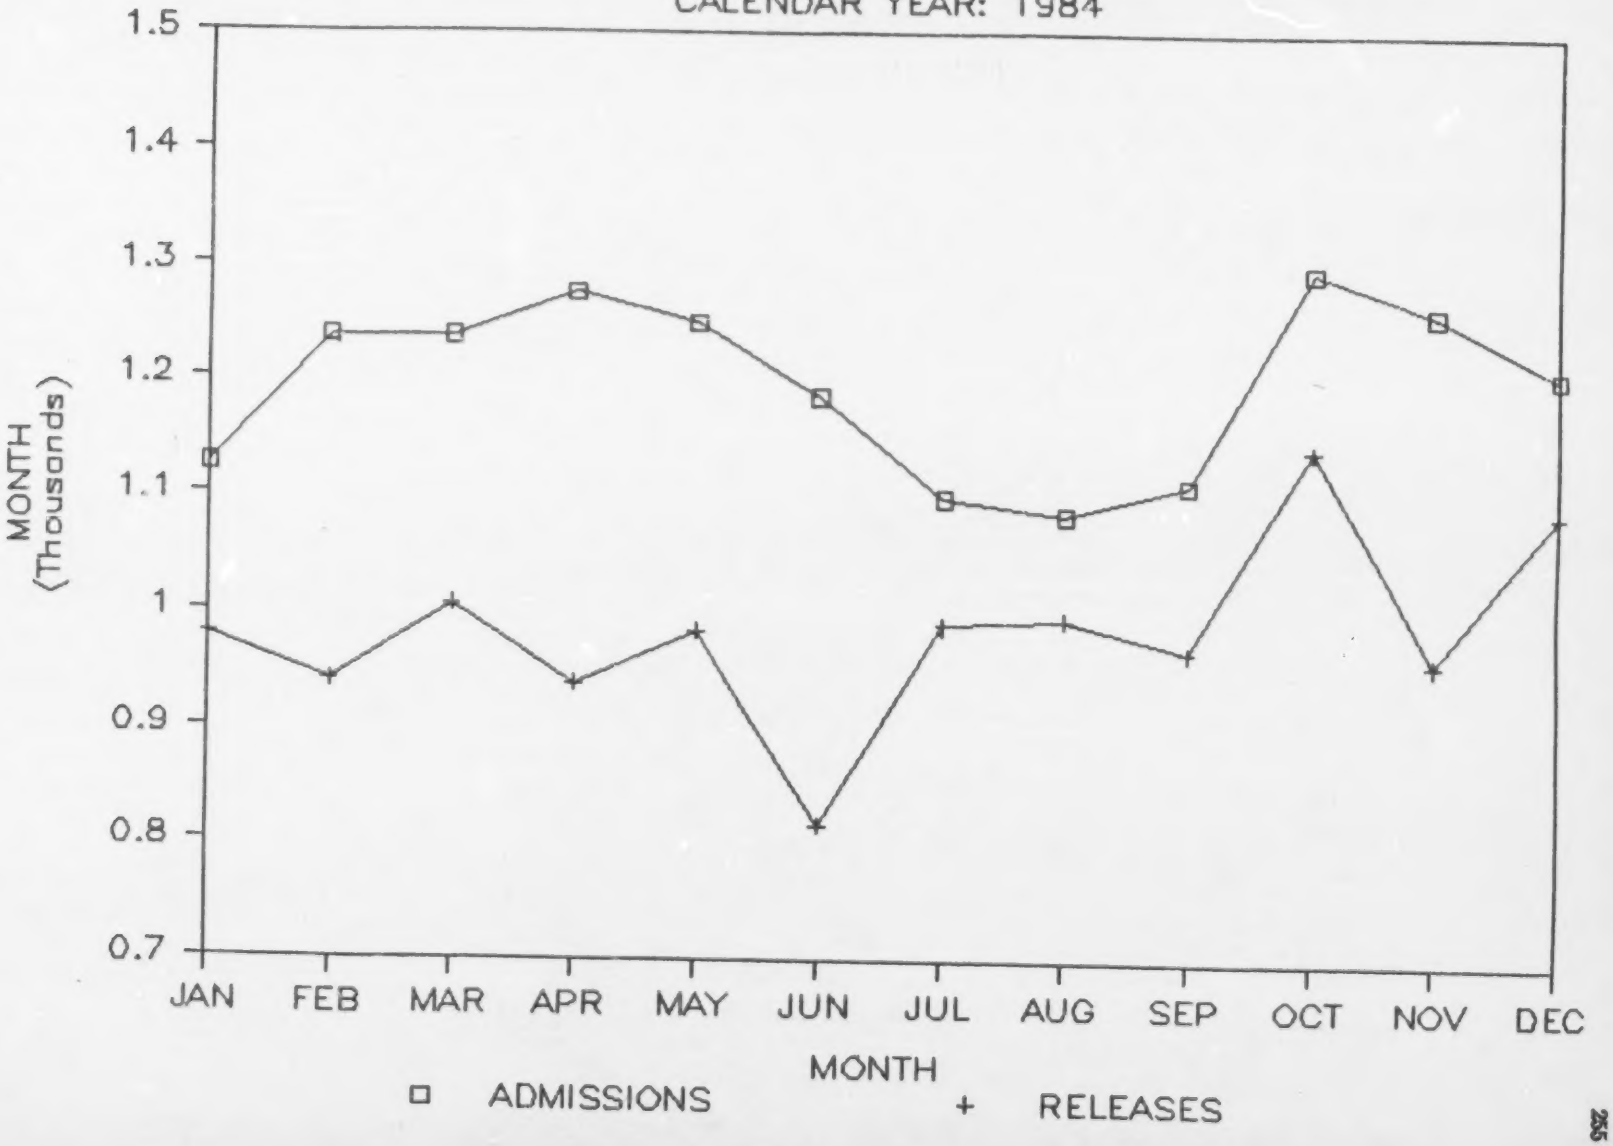
DOCS ADMISSIONS AND RELEASES

CALENDAR YEAR: 1984



Reason for Commitment (Exhibit 5)

Of the 12,248 offenders committed during 1984 to custody of the Department of Correctional Services, 44.0% (5,385) were sentenced as second or persistent felony offenders. A small portion of the commitments, 240 or 2.0% were sentenced as Youthful Offenders.

The majority (59.8% or 7,324) of the 1984 commitments had been convicted of crimes designated in the penal law as Violent Felony Offenses (VFO). Of these VFO commitments, 37.8% (2,766) had been sentenced as second felony offenders. Commitments for robbery led the VFO group followed by crimes of burglary, homicide, dangerous weapons, assault, and sex crimes.

Among commitments for other felonies, 55.9% (2,618) had been sentenced as second felony offenders. Of these 4,684 other felonies, there were 615 commitments for offenses involving violence or coercion. The largest single category in this group was robbery 3rd, which accounted for 329 commitments of whom 58.1% (191) were second felony offenders.

The remaining 4,069 other felony offenders had been committed for various property, drug and other crimes. Drug felonies was the largest category in this group with 1,877 commitments (13.0% of all commitments). The proportion of second felony offenders among drug commitments was 45.7% (857) while the proportion among the 2,192 property offenders (burglary 3rd, grand larceny, forgery, stolen property and other) was 66.8% (1,465).

NEW YORK STATE COMMISSION OF CORRECTION

The State Commission of Correction (SCOC) has oversight responsibility for all correctional facilities within New York State. The Commission makes recommendations to the Governor, and through the Governor to the Legislature, concerning strategies for improving corrections. The Commission identifies issues that affect corrections and problems that have systemic implications and pose a threat to the safety and well being of prisoners and staff. Included in the Commission's responsibility is the promulgation of minimum standards to serve as guidelines for correctional management, the development of policy level decisions to encourage compliance of those rules and regulations, and the offering of technical assistance.

The Commission has adopted three goals towards which its policy development and evaluative activities are directed:

1) To ensure the humane treatment of all persons confined within correctional facilities;

2) To improve the operations and programs of each correctional facility and the overall correctional system; and,

3) To improve the functioning of the SCOC in the carrying out of its mandate.

The Commission of Correction is legislatively mandated to investigate, review, amend and enforce standards for safe, sanitary, and orderly settings in all correctional facilities in the State of New York (State, Counties, Villages, Towns, New York City, and other Cities), for both staff and inmates. To assist in this effort, the Commission offers technical assistance to facilities and agency administrators through the provision of basic and in-service training for correctional personnel. The Commission approves, and when appropriate, assists in the development of proposed new construction and serves as a central repository for information on the correctional system in New York State.

CORRECTIONAL FACILITY POPULATIONS ACROSS NEW YORK STATE

New York State's county and state correctional facilities experienced a substantial increase of prisoners in 1983. Overcrowding in correctional facilities is detrimental to the operation of both institutional programs and services, and it puts an extra burden on correctional officers.

County correctional facilities, for all practical purposes, are the jails and penitentiaries operated by the 57 counties outside of New York City and are referred to as local correctional facilities. New York City maintains a centralized corrections department referred to as the New York City Department of Corrections (NYC/DOC). State correctional facilities are operated by the New York State Department of Correctional Services (DOCS).

1984 Major Activities

- County correctional facilities' prisoner populations increased 25% from 5772 prisoners in November 1980 to 7199 prisoners in November 1984.

- County correctional facilities' annual admissions increased an absolute 10% between 1979 and 1984, from 104,339 to 115 105 and an increase of 2% over the 1983 figures of 112,937.

- New York City Department of Correction (NYC/DOC) prisoner population increased in 1984 from over 9,000 prisoners in January to approximately 9,900 prisoners in December.

- County jails and penitentiaries reported 301 unusual incidents a decrease from the 313 reported in 1983.

- Police departments reported 171 unusual incidents, an increase of 44 over 1983.

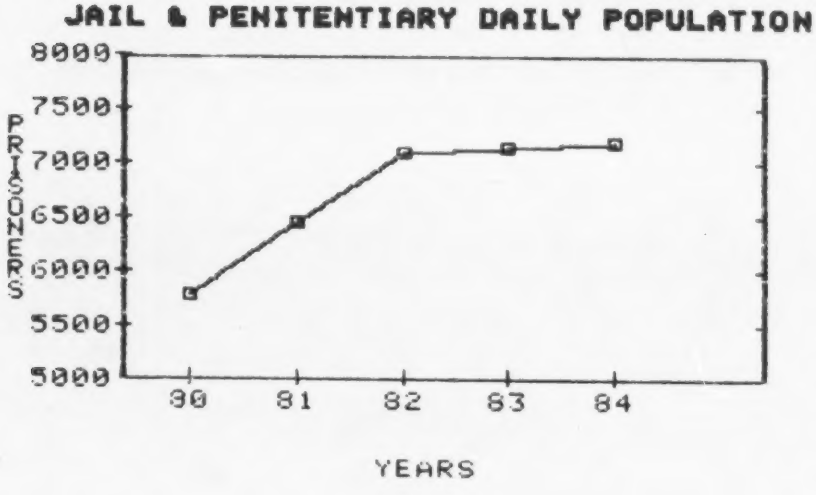
- County inmates contacted the Commission with 620 complaint letters and 113 grievance letters.

- Department of Correctional Services (DOCS) prisoner population increased in 1984 from nearly 31,000 in January to nearly 33,800 prisoners in December.

- Department of Correctional Services (DOCS) facilities operated at as high as 17.5% above their housing capacity in 1984.

Prisoner populations at the 56 county correctional facilities outside of New York City were measured nine times from November 1980 through November 1984. (Fulton County did not operate a correctional facility in 1984. All prisoners were boarded-out to Montgomery County.) During this period of time, the aggregate prisoner population of these counties increased an absolute 21% from 5,772 prisoners in November 1980 to 7,199 prisoners in November 1984.

CHART I



In 1984, the NYC/DOC population rose from just over 9,000 in January to 9,900 in December. The average population was 9,802 inmates.

There were 115,105 admissions to local correctional facilities during 1984. The following table provides a comparison of reported total admissions for the past six years.

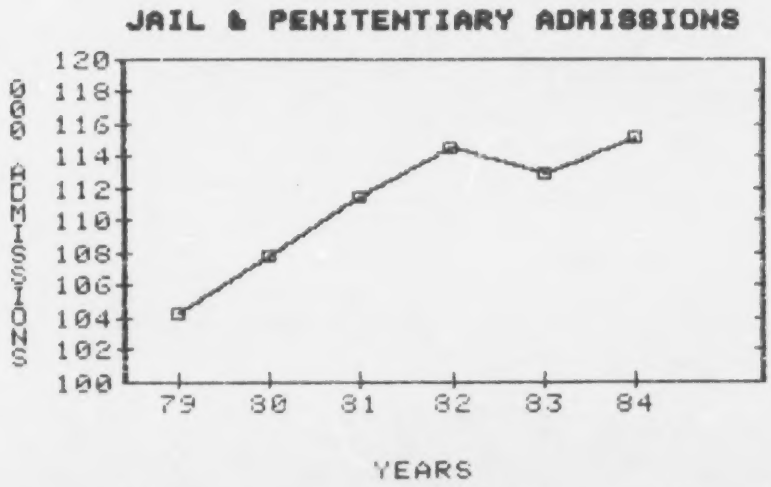
TABLE I

COUNTY JAILS AND PENITENTIARIES TOTAL REPORTED ANNUAL ADMISSIONS

Year	Total Admissions	Absolute Percent Change
1979	104,339	0
1980	107,843	+3%
1981	111,558	+7%
1982	114,576	10%
1983	112,937	+8%
1984	115,105	+10%

From 1979 to 1984, total reported annual admissions to jails and penitentiaries rose an absolute 10%.

CHART II



This increase in prisoner populations has had an adverse effect on the spatial and operational logistics of county correctional facilities. Extensive use of substitute jails to house prisoners another county jail cannot accommodate, and conversion of some program/ services space for housing space, are examples of logistical problems created by the increase populations.

The Commission of Correction receives unusual incidents on a daily basis from local correctional facilities as required by the Commission's Minimum Standards for Local Correctional Facilities, Part 7022, Unusual Incidents. The Commission also receives inmate complaints and grievances on a daily basis as required by Correction Law, Article 3, Section 45 (4).

There were 472 unusual incidents reported by county jails and lockups in 1984. Unusual incidents reported over the past six years have been: 542 in 1977; 591 in 1978; 428 in 1979; 454 in 1980; 398 in 1982; and, 440 in 1983.

Written and telephone complaints are received by the Commission from inmates concerning numerous correctional issues. There were 620 letters received from county facility inmates in 1984 from which 976 complaints were identified. The Commission also receives grievances from inmates who are not satisfied with a resolution received by the facility level. In 1984, there were 113 grievance letters/forms received from county correctional facilities from which 118 grievance issues were identified. Complaints and grievances are received directly from inmates. However, each facility's internal complaint procedure and internal grievance procedure generally affects the number of issues resolved at the facility level. These procedures vary among county facilities.

During 1984, the Commission developed a procedure for the centralized compilation of inmate complaints and grievances from State and Local facilities. This compilation presents a total picture of all inmate letters and grievances received by the Commission through several bureaus within the Agency. Also during 1984, the category lists used to identify and categorize complaints and grievances were revised. The Commission now utilizes one inclusive list of 23 major categories for both complaints and grievances.

The following table lists in rank order, by unusual incident category, the number of incidents reported by county facilities for 1984. The five most frequently reported unusual incidents include: Attempted Suicide (91); Use of Force (43); Assault, Incarcerant/Incarcerant (29); Self-Inflicted Injury (28); and, Escape/Abscondence (20).

TABLE III

RANK ORDER OF UNUSUAL INCIDENTS

COUNTY FACILITIES

January 1, 1984 December 31, 1984

Unusual Incident Category	Total Reported
Attempted Suicide	91
Use of Force	43
Assault, Incarcerant/Incarcerant	29

Correction Law also requires the Commission to respond to grievances, complaints, and unusual incidents originating from state correctional facilities. In 1984, the population in these facilities rose from 31,000 in January to 33,800 in December. Despite additional inmate space being brought on-line during the year, the Department of Correctional Services faced continual overcrowding which rose as high as 17.5% above capacity.

As in the case of local correctional facilities, the Commission also receives complaints and grievances from state correctional facility inmates. There were 1,559 letters of complaint received from state correctional facility inmates in 1984. A total of 2,071 complaint issues were identified from these letters.

During 1984, the Commission also received a total of 1,363 grievances from inmates in state facilities. These grievances had already been considered by various reviewing bodies within the DOCS hierarchy, including: the Inmate Grievance Resolution Committee; the Facility Superintendent; and, the Central Office Review Committee. If dissatisfied with the decision of these committees, the inmate may refer the matter to the Commission.

The Commission receives on a daily basis unusual incident head sheets from Central Office of the Department of Correctional Services. The Commission reviews the incidents and conducts special investigations and/or follow-up as necessary. A total of 3,800 unusual incidents were reported by Central Office in 1984.

The following table lists in rank order the total number of state complaint issues identified in 1984. A total of 1,559 letters of complaint were received from state correctional facility inmates in 1984. A total of 2,071 complaint issues were identified from these letters. The following table lists in rank order the total number of state complaint issues identified.

CONCLUSION

The Commission will continue to oversee the operation of all correctional facilities in New York to ensure the safe and humane custody of inmates, as well as the safety and security of correctional staff. As the incarcerated population grows, the need for these efforts increases as well.

Many of the spatial and operational problems which were identified in 1983 continue to exist this year. Space for housing, services and programs is needed to accommodate both current population levels as well as anticipated growth. Without significant changes in both public attitude and criminal justice policies, sustained population growth will continue.

DIVISION FOR YOUTH

During 1984 2,256 individuals were admitted to residential facilities operated by the New York State Division for Youth. Of these, 1,839 were first admissions having had no prior contact with Division programs; 286 were readmissions from aftercare; and 131 had experienced previous placements with the Division (Table VI).

For those youths adjudicated Juvenile Delinquents, Restrictive Juvenile Delinquents or Juvenile Offenders, the offenses of burglary, robbery, larceny and other thefts accounted for 71.6% of the admissions. Assaults and homicides were responsible for an additional 10.8% of the admissions for this group (Table I).

Among the 2,256 admissions, 13.2% were placed in secure facilities and an additional 16.3% in limited secure facilities. The largest category among admissions was cooperative/voluntary which accounted for 28.0% of the admissions (Table II).

Juvenile Delinquent adjudications accounted for 68.0% of the admissions and Juvenile Offender adjudications an additional 11.8%. Persons In Need of Supervision were responsible for 15.2% of the 1984 admissions (Table III).

Males made up 82.7% of the admissions and females the remaining 17.3% (Table IV). Table V which lists admissions by ethnicity, shows Blacks accounting for 45.9% of the admissions, followed by Whites at 36.9%, and Hispanics at 16.3%.

DIVISION OF PAROLE 1982-1984

Parole Board Activity

During the 1982-83 and 1983-84 fiscal years, the Parole Board conducted approximately 32,000 interviews and/or hearings in State correctional facilities to determine parole eligibility dates for certain inmates, the release readiness of eligible inmates to parole supervision and the re-release of parole violators, as well as other types of administrative hearings.

The number of release interviews conducted by the Parole Board increased from 15,067 in 1982-1983 to 16,274 in 1983-1984. The most notable shift was in the increased number of reappearance interviews for those inmates who were denied parole at their initial appearance and reappeared before the Board for a release decision. During the 1982-1983 period, 4,623 such inmates appeared before the Board for interviews, whereas in 1983-1984 there were 5,220 reappearances, a 13% increase.

The Parole Board granted release to 15,846 inmates during the last two fiscal years with a substantial increase in 1983-84. Release decisions were granted to 7,342 initial applicants during the two year period (inmates who became eligible for parole release after serving their minimum sentence from April 1, 1982 through March 31, 1984). Reappearance interviews resulted in 6,854 release decisions for inmates who were previously eligible for parole release, but were denied release and became eligible again. Re-release interviews for violators resulted in 1,631 inmates released to the community. Other release interviews resulted in 19 inmates being granted parole. The decisions rendered at the various release interviews are summarized in Table 1 below.

Table 1: Comparison Of Outcomes For Release Interviews

Type of Interview	Initial		Reappearance		Violator Re-Release		Other		Total	
	1982-1983	1983-1984	1982-1983	1983-1984	1982-1983	1983-1984	1982-1983	1983-1984	1982-1983	1983-1984

Total Interviews	9,338	9,983	4,623	5,220	1,097	1,061	9	10	15,067	16,274

85-89

92-94

The community protection efforts of the Parole Board are reflected in a comparison of some of the characteristics of inmates granted and denied release at initial interviews. The comparison reveals that inmates who were denied release were more likely to have committed crimes involving the use of a weapon or the occurrence of an injury. Further, those who were denied release had more extensive prior records than inmates granted release. The effectiveness of the Parole Board's screening is demonstrated in greater detail in the table to follow:

Table 2: Profile Of Initial Applicants Released Or Denied By the Parole Board

	1982-1983		1983-1984	
	Released N=3,103	Denied N=5,739	Released N=4,239	Denied N=5,143

Institutional Parole Services

The Institutional Parole Officer plays a critical role in the inmate's transition from institutional to community life. The IPO serves in a bridging capacity between the inmate and the community, the inmate and the field parole officer, and the inmate and the Parole Board.

The role of the Institutional Parole Officer includes an assessment of the needs of each inmate and encourages their participation in programming, during incarceration, which meets these needs. Institutional Parole Officers conduct inmate group counseling sessions and Parole orientation classes for inmates. Additionally, they interview inmates, in advance of their Board release interviews, to gather information which is presented to the Board in summary reports together with recommendations as regards the granting or denial of parole release and the possible conditions of release.

The table below displays some of the major activities of the Institutional Parole staff during fiscal years 1982-83 and 1983-84.

Table 3: Re-Entry Services' Activities During Fiscal Years 1982-1983 And 1983-1984

Activity	1982-1983	1983-1984
Parole Orientation Classes For Inmate Groups	1,119	1,156
Inmate Interviews For Parole Board Interviews	46,237	50,680
Service Interviews	23,970	32,648
Pre-Release Inmate Interviews	11,645	13,579
Inmate Group Counseling Sessions	187	302
Total	83,158	98,365

After a parolee has been granted release, the Institutional Parole Officer continues to participate in Parole Board release planning through the Community Preparation Program. The Institutional Parole Officer provides the link between the institution and the community both through pre-release interviews conducted with inmates and through ongoing communication with the Field Area Office to which the parolee is to be released. These services are provided to both inmates who are released by decision of the Parole Board and to those conditionally released.

Finally, Institutional Parole Officers continue to participate on correctional temporary release committees which grant temporary work release, furloughs and other leaves of absence for good cause to inmates. The Institutional staff is involved in committees in 17 correctional facilities that give support and advice to drug and alcohol programs.

Community Supervision of Parolees

Community supervision is at the heart of the Division's community protection mission. The Field Parole Officer is located in the community supervising offenders released from State Correctional Facilities. Community protection requires that Field Parole Officers adhere to strict supervision standards. Additionally, it is essential to ensure that parolees comply with the terms and conditions of release. When the conditions of release are violated, the Field Parole Officer must take appropriate action.

Presence in the community allows the Field Parole Officer to become familiar with the services and resources which the neighborhood contains. Through their familiarity with the surrounding community, the officer can expedite the reintegration of the offender by linking offenders with particular needs to relevant services.

There were 30,309 individuals under community parole supervision during fiscal year 1983-84, as reflected in Table 4 on the following page. This represented an increase of 16% over the previous year's figure of 26,182. This increase is primarily a result of the tremendous growth in releases during the year. Total releases to parole supervision increased by 20%. Parole Board releases from state correctional facilities increased during fiscal 1983-84 by 36%. Parole Board release practices, as reflected by the median time-served statistics, have remained very consistent over the years. The increase in the number of Parole Board releasees in this year can be largely explained by the growth in new commitments to Department of Correctional Services facilities in recent years.

Table 4: Parolee Movement And Census For Years 1982-1983 And 1983-1984

Movement/Census	1982-1983	1983-1984
April 1 Active Parolees	15,553	17,555
State Inmates Released By Board A/	6,581	8,967
State Inmates Released by CR	2,632	2,388
Local Inmates Released by Board	814	676
Cooperative Parolee Agreement from Other States	450	430
Juvenile Offenders Released	152	293
Total Inmates Released to Parole Supervision B/	10,629	12,754
Total Caseload Removals (Discharges and Returns) C/	8,627	9,087
Dynamic Population for Year D/	26,182	30,309
March 31 Active Parolees	17,555	19,054
Delinquent Parolees E/	3,876	4,046
Total End of Year Caseload (March 31)	21,431	23,100

A/ These individuals were actually released from state prison during the given fiscal year. The total number of releasees should not be confused with the number of inmates granted release by the Parole Board during the same year (cf., page 2). Release interviews are done two months in advance, so that the number of actual releases is usually less than the number of inmates granted release by the end of a year. Moreover, inmates granted release in March, which is the close of the fiscal year, would be counted as releasees in the new fiscal year.

B/ This includes cases released to supervision both within state and out-of-state.

C/ Removals include parolees discharged from parole supervision by expiration of maximum sentence, death, Board action, court order and prison returns.

D/ Dynamic population is the cumulative number of parolees under supervision during all or any part of the year.

E/ Delinquents are those parolees carried by parole officers who are either in the stages of the violation process or are absconders. Not all delinquents in the violation process will have their parole revoked.

Outcome of Parole Supervision

The primary goals of the Division of Parole are to assist offenders released from correctional institutions to adjust to community life, and to provide community protection by preventing these individuals from re-engaging in criminal behaviors.

Parole Officers carry out these goals by supervising parolees in the community, coordinating the delivery of available social services, and helping to motivate and guide the parolees towards a more positive lifestyle. However, one must realize that not all persons will abide by their conditions of release. The Division must, therefore, fulfill the goal of community protection by returning a violator to prison.

A violation of parole occurs when an individual under supervision violates the conditions of parole in an important respect. These conditions are agreed to in writing by an inmate upon release from prison to community parole supervision. They stipulate, for example, that if the releasee absconds from supervision or re-engages in criminal activity, his/her parole is subject to revocation. The individual may consequently be returned to prison following a series of due process hearings.

In the 1983-84 period, 9% of all parolees under supervision during the year were returned to prison by the courts for committing new crimes or by the Parole Board for violating the rules of parole (e.g., absconding, or illegal use of drugs). Table 5 provides a more detailed analysis of the parole success rate.

Table 5: Outcome of Parole Supervision

Outcome Measure	1982-1983 A/	1983-1984 B/
Rate of Parolees Returned to Prison with New Court Conviction During Year	2% (N=453)	2% (N=715)
Rate of Parolees Returned to Prison for Violating Conditions of Parole During Year	8% (N=1,979)	7% (N=2,006)
Total Rate of Prison-Returns During Year	9% (N=2,432)	9% (N=2,721)

A/ Rates computed on basis of dynamic population of 26,182 parolees during April 1, 1982 through March 31, 1983.

B/ Rates computed on basis of dynamic population of 30,309 parolees during April 1, 1983 through March 31, 1984.

In view of the data in Table 5, the parole success rate can be measured in several different ways.

In terms of total number of parolees not returned to prison, the success rate was 91% in both 1982-83 and 1983-84. This result is an indication of the Division's overall performance in deterring parolee crime and reincarceration.

From the point of view of enforcing the rules of parole, parolees returned to prison for rule violations cannot really be considered "failures" in the same sense as those who were returned for new criminal convictions. For example, absconding from supervision is less serious than committing a violent offense. But, more importantly, a prison return based on a rule violation decreases the chances of a parolee being a threat to community safety. Given this, the success rate was actually 98% for both fiscal years.

Using the most rigorous definition of success, those parolees in an active reporting status, the success for 1982-83 was 74%; in 1983-84 it was 75%. This measure excludes parolees in either an incarcerative or absconder status. It is important to note that not all of these incarcerated or absconder parolees will have their parole revoked or even enter the violation process.

CRIME VICTIMS BOARD

The Crime Victims Board (CVB), established August 1, 1966, compensates eligible victims who have: suffered a serious financial hardship, been physically injured, reported the crime promptly to the police, and been adjudged as being an innocent victim.

The CVB is designated as the "payer of last resort". Compensation that the CVB is able to provide includes awards for: unlimited unreimbursed medical expenses; unreimbursed loss of earnings up to a maximum of $250.00 per week; unreimbursed loss of support up to an aggregate amount of $20,000; unreimbursed funeral expenses up to a maximum of $1,500; and lastly, up to $3,000 for vocational rehabilitation. Many financial losses incurred by crime victims involve the repair or replacement of essential personal property damaged or stolen during the course of the crime. These losses, at present, are not able to be covered by the CVB, although current legislation has been introduced for just such purposes.

For fiscal year 1984-85 the CVB received 10,999 claims and expended $9,822,300 exclusively for crime victims.

All New York State law enforcement agencies and officials who have direct contact with crime victims have claims forms and information brochures on hand to give out relating to the availability of compensation from the CVB. As public awareness of the CVB is heightened, it is anticipated that there will be similar increases in claimants during the next fiscal year.
